### **EDUCATIONAL ACTIVITIES**

Invited Instructor June 22, 2011  
 University of Michigan, Inter-university Consortium for Political and Social Research (ICPSR)  
*Evaluating the Impact of Publicly Funded Early Childhood Programs on Children and Families* presented conducting impacts analyses with the public-use release of data from the Early Head Start Research and Evaluation (EHSRE) Study, 1996-2010.

Invited Instructor August 11-13, 2004  
 University of Michigan, Inter-university Consortium for Political and Social Research (ICPSR)  
 The course presented the first public-use release of the Early Head Start Research and Evaluation (EHSRE) Study, 1996-2001. These data were collected from about 3,000 program and control group participants, including children from birth to three years of age and their parents, to examine the impacts of the Early Head Start program. The evaluation was carried out in 17 Early Head Start programs, located in diverse communities across the United States.

Instructor 1997-1998  
 Michigan State University, Developmental Psychology  
 Instructor of Developmental Psychology: Infancy through Childhood. Course instruction included theories and research from infancy through childhood. Information provided on physical, cognitive, social and emotional development through this life span.

### Graduate Advising

2012: Dissertation Committee Member, Karen Lake, *The Relationship Among Maternal Parenting Stress, Coping and Depressive Symptoms*. College of Nursing, University of Wisconsin-Milwaukee.

## GRANTS AND CONTRACT AWARDS

### Grants

Principal Investigator (PI: Lorraine McKelvey) 2024-2027  
University of Arkansas for Medical Sciences, Evaluation of Arkansas' T.E.A.C.H. and WAGES programs for the early childhood care and education workforce.  
The goal of this study is to evaluate the impact of T.E.A.C.H. and WAGES on participant outcomes. Funded by the Walton Family Foundation, Inc. (00110848) (\$905,616 Total).

Principal Investigator (MPIs: Ashley Acheson, Lorraine McKelvey & Xiawei Ou) 2021-2026  
Arkansas Children's Research Institute and University of Arkansas for Medical Sciences, 1/6 HEALTHY Brain and Child Development Study: Prenatal Experiences and Longitudinal Development (PRELUDE) Consortium  
The HBCD Study will establish a large cohort of pregnant women and follow them and their children for at least 10 years. Findings from this cohort will provide a template of normative neurodevelopment and a better understanding of how prenatal and perinatal experiences impact brain and behavioral development. Funded by the National Institutes of Health (U01DA055352) (\$7,559,045 Total).

Principal Investigator (MPIs: Ashley Acheson, Lorraine McKelvey & Xiawei Ou) 2023-2026  
Arkansas Children's Research Institute and University of Arkansas for Medical Sciences, HBCD Study Biospecimens Administrative Supplement: Resource Generation for Delivery Specimens  
This Administrative Supplement will expand biospecimen collection of the Core HBCD Protocol to include delivery specimens (placenta, cord tissue, cord blood). This will provide an unprecedented resource to evaluate the pathophysiological mechanisms that mediate opioid use during pregnancy on outcomes. Funded by the National Institutes of Health (U01DA055352-S1) (\$4,612,066 Total).

Principal Investigator (MPIs: Kanna Lewis & Lorraine McKelvey) 2022-2024  
Moderation of Adverse Childhood Experiences with Support for Protective Child Experiences.  
Our objective is to construct Protective childhood experiences (FMI-PCEs) as productive targets for ECE intervention. For the proposed study, using 15 years FMI data, we will examine the association of FMI-ACEs and FMI-PCEs with healthcare utilization and chronic conditions (e.g., asthma and ADHD) among EHS/HS children. Funded by the United States Department of Health and Human Services' Office of Planning, Research and Evaluation/Administration for Children and Families (ACF - 90YR0146) (\$100,000 Total).

Principal Investigator (MPIs: Lorraine McKelvey & Kanna Lewis) 2022-2024  
Coaching the Coaches: Supporting Family Involvement in Virtual Home Visits through Video Feedback.  
This project supports virtual delivery of evidence-based home visitation by generating knowledge on implementation and effectiveness of a video-coaching innovation. Funded by the United States Department of Health and Human Services' Health Resources and Services Administration (U4GMC45637-01-00) (\$1,999,754 Total).

Principal Investigator 2011-2024  
University of Arkansas for Medical Sciences, Evaluation of the Arkansas Home Visiting Network  
The study evaluates the implementation of home visiting in 29 Arkansas counties using evidence-based home visiting programs (Healthy Families America, Parents as Teachers, Home Instruction for Parents of Preschool Youngsters). Funded by the United States Department of Health and Human Services' Health Resources and Services Administration (D89MC23141; D89MC28258; X10MC31128; X10MC32178) (\$422,000/2011; \$357,914/per year 2012-2019; \$417,914/per year 2020-2021).

Principal Investigator (MPIs: Taren Swindle & Lorraine McKelvey) 2011-2023  
Adapting and Pilot Testing Together, We Inspire Smart Eating in Home Visiting.  
The goal of the project is to adapt and pilot test WISE for HV programs in rural Arkansas. Funded by the UAMS Rural Research Award Program (RRAP) (\$100,000 Total).

Principal Investigator (MPIs: Kanna Lewis & Lorraine McKelvey) 2022  
Adverse Childhood Experiences of Arkansas's Children: Co-occurring Risks and Links to Health Outcomes. The goal of this study is to identify Adverse Early Childhood Experiences co-occurrences that predict lower preventive care utilization and elevated risks of chronic conditions. UAMS Barton Award (\$25,000 Total)

Co-Investigator (PIs: Ashley Acheson & Xiawei Ou) 2020-2021  
University of Arkansas for Medical Sciences, Helping to End Addiction Long-term (HEAL) Consortium: Establishing Innovative Approaches for the HEALTHY Brain and Child Development Study Supplement  
This supplement was provided to develop a virtual implementation of the HOME Inventory and to determine the impacts of COVID-19 on families. Funding supports the development of instrumentation needed for the national protocol.  
Funded by the National Institutes of Health (3R34DA050261-01S2) (\$153,047 Total).

Co-Investigator (PIs: Ashley Acheson & Xiawei Ou) 2019-2021  
University of Arkansas for Medical Sciences, Helping to End Addiction Long-term (HEAL) Consortium: Establishing Innovative Approaches for the HEALTHY Brain and Child Development Study  
The study examines how prenatal exposure to opioids and other drugs affects children's brain development, prenatal through age 10. This funding supports the development of the national protocol.  
Funded by the National Institutes of Health (3R34DA050261-01; 3R34DA050261-01S1) (\$516,000 Total).

Consultant (PI: Ann Cheney) 2019-2021  
University of California Riverside, Addressing Childhood Obesity in Low-income Families  
The study examines Early Head Start nutrition education that engages families of newborns and infants.  
Funded by the National Institutes of Health (1U54MD013368-01A1) (\$453,754/Year).

Principal Investigator 2016-2017  
University of Arkansas for Medical Sciences, Foundations for Smarter Screening: Exploring Patterns of Exposure to Adverse Childhood Experiences and the Protective Influence of Early Intervention on Child Health and Development  
The study examines the consequences of exposure to adverse childhood experiences from infancy into early childhood on development in the later early and middle childhood years. Funded by the United States Department of Health and Human Services' Health Resources and Services Administration (R40 MC29441-01) (\$100,000/Year).

Co-Investigator (PI: Leanne Whiteside-Mansell) 2011-2016

University of Arkansas for Medical Sciences, Interventions for obesity prevention targeting young children in at-risk environments: An integrated approach

The project involves Arkansas's leading academic institutions and includes participation by the University of Arkansas, Fayetteville; UAMS Arkansas Children's Hospital; UAMS Department of Family and Preventive Medicine; and UAMS Arkansas Center for Health Information. Funded by US Department of Agriculture's National Institute for Food and Agriculture, Agricultural and Food Research Initiative Competitive Grants Program (2011-68001-30014) (UAMS Site: \$1,632,995).

Principal Investigator 2010-2013

University of Arkansas for Medical Sciences, Evaluation of Thrive Home Visiting Programs for Pregnant and Parenting Teens

The study evaluates whether the implementation of home visiting and group services for teen mothers will strengthen parent-teen interaction and help youth learn communication skills and negotiation techniques they can use at home, at school, and throughout their lives. Funded by the United States Department of Health and Human Services, Office of Adolescent Pregnancy Programs (APHPA006061) (\$380,987/Year).

Co-Investigator (PI: Leanne Whiteside-Mansell) 2008-2011

University of Arkansas for Medical Sciences, the Infant-Toddler Family Map: A Foundation for Parent-Teacher Partnerships

The project was to develop an assessment to measure domains of the family environment associated with infant-toddler development. Study funded by the Department of Health and Human Services, Administration for Children and Families (90YD0254/(01-03)) (\$250,000/Year).

Co-Principal Investigator (Co-PI: Robert Bradley) 2007-2009

University of Arkansas for Medical Sciences, Second Looks: Examining the Impacts of Early Head Start  
The purpose of this study was to determine the impact of participation in EHS on children's cognitive and social well-being as well as to determine whether aspects of programs and characteristics of children and families moderate the impacts. Study funded by the Department of Health and Human Services, Administration for Children and Families (90YR0011/01) (\$39,374/Year).

Co-Investigator (PI: Patti Bokony) 2006-2011

University of Arkansas for Medical Sciences, Responsible Fatherhood Initiative: Brief Parenting Interventions

The purpose of this study was to develop and evaluate the impact of Brief Parenting Interventions, lessons delivered by trained preschool teachers that can be conducted in 15 minutes or less, for parents of low-income children. Study funded by the Department of Health and Human Services, Administration for Children and Families Grant; Healthy Fatherhood Initiative (90FR0041/(01-05)) (\$974,562/Year).

Co-Principal Investigator (Co-PI: Leanne Whiteside-Mansell) 2006-2009

University of Arkansas for Medical Sciences, Early Head Start Research Project, Fifth Grade Follow Up

The purpose of this study was to determine the impact of participation in EHS on children's cognitive and social well-being as well as to determine whether aspects of programs and characteristics of children and families moderate the impacts when children are 10 years of age. Study funded by the Department of Health and Human Services, Administration for Children and Families and Xtria (HHSP233200600003T Contract No. 233-02-0086) (\$50,000/Year).

Principal Investigator 2008-2009

University of Arkansas for Medical Sciences, Children's Exposure to Violence at Home and in the Community: Pathways to Outcomes at Age 18

The purpose of this study was to determine the impact of childhood exposure to family conflict and neighborhood violence on adolescent's cognitive and social well-being. Study funded by the Robert Wood Johnson Foundation (63547) (\$54,995/Year).

Co-Investigator (PI: Leanne Whiteside-Mansell) 2005-2007  
University of Arkansas for Medical Sciences, Cross Cultural Parenting  
The goal of this study was to examine three aspects of parenting across five American cultural groups in a secondary data analysis of the Starting Early Starting Smart study. Funding from the National Institute of Health, NICHD (R03HD048868) (\$75,000/Year).

Co-Investigator (PI: Andrea Hart) 2005-2007  
University of Arkansas for Medical Sciences, Secondary Conditions in AR Children with Spina Bifida  
Using longitudinal data, determine individual and familial factors that contribute to the development of obesity, social isolation, and depression in children with spina bifida. Funded through the Association of University Centers on Disabilities and the Centers for Disease Control (\$300,000/Year).

Co-Principal Investigator (PI: Mark Swanson) 2005-2006  
University of Arkansas for Medical Sciences, Early Head Start Research Project, Pre-Kindergarten

University of Arkansas for Medical Sciences, Early Childhood Education Workforce Study  
The goal of this project is to determine characteristics of Arkansas' early childhood education workforce and elements of personnel and organizations that lead to staff attrition. Funded by the Kellogg Foundation (\$35,206).

Co-Investigator (PI: Nicola Edge) 2006-2011  
University of Arkansas for Medical Sciences, Early Childhood Mental Health  
The purpose of this study was to evaluate the impact of the Early Childhood Mental Health project which is designed to facilitate collaboration between Community Mental Health Centers and early childcare programs, including Head Start centers and state-funded pre-kindergarten programs. Study funded by the Arkansas Department of Education's Division of Childcare/Early Childhood Education (4500625176) (\$599,818/Year).

Co-Investigator (PI: Nicola Edge) 2007-2009  
University of Arkansas for Medical Sciences, Early Childhood Community Mental Health Center Partnership-Training/Technical Assistance Evaluator  
The purpose of this study was to evaluate the impact of the Early Childhood Mental Health project, which is designed to facilitate collaboration between Community Mental Health Centers and early childcare programs. Study funded by Division of Childcare/Early Childhood Education (DCC-2007/(01-02)) (\$271,065/Year).

Co-Investigator (PI: Leanne Whiteside-Mansell) 2006-2008  
University of Arkansas for Medical Sciences, Arkansas Analysis of Adult Tobacco Use  
Purpose of the study was to investigate smoking cessation programs in Arkansas. Funded by the Arkansas Department of Health (4600042322) (\$50,000/Year).

Principal Investigator 2006-2008  
University of Arkansas for Medical Sciences, Stress and Coping in Low-Income Families: Examining Intervention Effects  
Using pre-existing data from two of the 17 research sites included in the Early Head Start Research and Evaluation (EHSRE) study, the goal of this study was to examine the psychometric properties of a measure of family coping and to examine the longitudinal changes in coping in low-income families. Funded by the Arkansas Children's Hospital Research Institute (\$37,758).
