### **Purpose**

To outline the medical screening policy for residents and fellows.

### **Policy**

The UAMS College of Medicine Graduate Medical Education Committee has adopted the following University of Arkansas for Medical Sciences (UAMS) Administrative Guide policies for medical screenings:

- UAMS Administrative Guide policy 3.1.14 Drug and Alcohol Testing
- UAMS Administrative Guide policy, Healthcare Personnel Medical Screening, 4.5.18

According to UAMS Policy, 4.5.18, all residents/fellows must undergo a medical screening at the time of appointment to the training program as well as an annual medical evaluation.

It is the policy of UAMS to perform drug tests (both pre-employment and random) on employees who are employed in positions that have been designated as safety sensitive. For cause drug tests are also performed on employees, when resident/fellow behavior is characteristic of being under the influence of alcohol or other substances while on duty.
