Gwen Childs. UAMS: A number of grants, including a PG PG that he he was big on with Dr. Who. Lay yeah I think it also helped fund, Dr. Sue Griffin P. P. G. And I don't know if she's on board here.

339

00:18:20.250 --> 00:18:32.850

Gwen Childs. UAMS: And by the time this was over there. We had 9.6 million funding to you a MS and anatomy department was ranked 41st out of 91 didn't

340

00:18:34.680 --> 00:18:42.630

Gwen Childs. UAMS: Know I was hired and at this code in 2000 Edgar came to me and said, you know, I'd like to

341

00:18:43.410 --> 00:18:59.130

Gwen Childs. UAMS: Get a grant that's going to bring \$12 million in and I thought he was a little bit crazy. But I also said, you know, he sounds really visionary and he was absolutely was but my job was to sell this idea to

342

00:19:00.390 --> 00:19:08.280

Gwen Childs. UAMS: Add it a little bit. They finally to allow him to be the API and apartment.

343

00:19:08.340 --> 00:19:09.300

Gwen Childs. UAMS: We connected him with

344

00:19:09.600 --> 00:19:13.110

Gwen Childs. UAMS: Horses, and in 2000 and for the first

345

00:19:14.670 --> 00:19:17.610

Gwen Childs. UAMS: Over award was funding, led by Edgar.

346

00:19:19.350 --> 00:19:35.040

Gwen Childs. UAMS: And the this Cobra has been renewed twice. It was seven and a half million for five years and then he renewed for another five years and then phase three was renewed for an additional 3.75 million is a 30

347

00:19:35.970 --> 00:19:38.580

Gwen Childs. UAMS: And I just want to know that.

348

00:19:39.600 --> 00:19:49.800

Gwen Childs. UAMS: Benefited came from me anti geriatrics neurology neurobiology nursing pediatrics pharmacology pharmacy. Physical Medicine and rehab.

349

00:19:50.160 --> 00:20:03.480

Gwen Childs. UAMS: Physiology psychiatry public health radiology, you see a AC su and Hendrix. So it was very widespread and as many clinicians scientists benefited from

350

00:20:04.470 --> 00:20:18.900

Gwen Childs. UAMS: And it increased grants support. So by the end, it had brought in over 33 million, but it helped to fund other co brace and other centers, ending up bringing in over 100 million in new funding and it's

351

00:20:20.490 --> 00:20:33.120

Gwen Childs. UAMS: So the CT and investigators have generated over 100 articles and chapters. It might even be more by now. And there are four cutting edge course and important.

352

00:20:33.150 --> 00:20:34.410

Gwen Childs. UAMS: Facilities telling

353

00:20:35.490 --> 00:20:41.580

Gwen Childs. UAMS: God, I don't, I don't see with here, it might be here, but I think he was kind of

354

00:20:41.910 --> 00:20:43.020

garciarilledgar: I don't think what is here.

355

00:20:43.140 --> 00:20:44.400

Gwen Childs. UAMS: Okay, I

356

00:20:46.050 --> 00:20:46.410

chris westfall: Was

357

00:20:47.610 --> 00:20:48.420

Gwen Childs. UAMS: Gonna let you buy

358

00:20:49.050 --> 00:20:52.260

Gwen Childs. UAMS: Your course the electrophysiology core, the

359

00:20:52.890 --> 00:21:06.540

Gwen Childs. UAMS: Images for stroke research tie with the stroke research with Dr. Skinner, Dr. Cole. And so, so it's funded these facilities that are ongoing and saving lives.

360

00:21:07.140 --> 00:21:21.720

Gwen Childs. UAMS: And as all of this was going on his own research was thriving he had two to three are one grants at a time. He was awarded the deans distinguished faculty award in 2005 and 2009

361

00:21:21.810 --> 00:21:23.760

Gwen Childs. UAMS: He received the cancers. Teaching Award

362

00:21:24.180 --> 00:21:35.220

Gwen Childs. UAMS: And thousand 18 he received the research Excellence Award. So um yes well over 256 law reviews and

363

00:21:36.900 --> 00:21:37.290

Gwen Childs. UAMS: So,

364

00:21:39.150 --> 00:22:00.630

Gwen Childs. UAMS: Basically, we want to thank Edgar for an amazing round and run of service. It's just been incredible. And I know we can all thank you this way, but that I what I thought I'd do is go ahead and give him the gifts from the department. And then we can have other people chime in.

365

00:22:00.660 --> 00:22:04.470

Gwen Childs. UAMS: And talk amongst themselves and talk about it.

366

00:22:05.670 --> 00:22:18.690

Gwen Childs. UAMS: Um, now, what I did was I got individually contribute and then I called Catherine to find out what your might. Like he said that was a real challenge.

367

00:22:21.570 --> 00:22:38.100

Gwen Childs. UAMS: And so she she um, I thought, well, we could get something cool like an iPad. But he already has an iPad brand new one. So we decided to do a variety of things and Kevin, can you give Edgar, the largest package.

368

00:22:39.330 --> 00:22:39.930

Gwen Childs. UAMS: Open it.

369

00:22:41.490 --> 00:22:41.970

Gwen Childs. UAMS: And so

370

00:22:43.410 --> 00:22:44.670

Gwen Childs. UAMS: We brought it over to

371

00:22:45.000 --> 00:22:46.140

garciarilledgar: Glenn. Nice to see you.

372

00:22:46.800 --> 00:22:47.700

PaitThomasG: Nice to see you. I'm

373

00:22:48.210 --> 00:22:49.710

Gwen Childs. UAMS: Glad you're here, glad

374

00:22:50.040 --> 00:22:50.610

PaitThomasG: I made

375

00:22:52.770 --> 00:22:53.700

PaitThomasG: My just my

376

00:22:54.990 --> 00:22:58.110

Gwen Childs. UAMS: We're so glad you are. This is no

377

00:22:58.260 --> 00:23:00.030

PaitThomasG: I'm honored to be here. Absolutely.

378

00:23:01.020 --> 00:23:07.110

Gwen Childs. UAMS: Oh, so this package is the artwork. Basically, he will see it soon.

379

00:23:08.250 --> 00:23:10.680

Gwen Childs. UAMS: That Joe Korea did

380

00:23:11.280 --> 00:23:15.000

Gwen Childs. UAMS: You honor his retirement Joe is here, Joe. He's an artist.

381

00:23:16.470 --> 00:23:26.040

Gwen Childs. UAMS: He's always here and you all saw it as an invitation, but this is now a frame poster by the Red Dog gallery.

382

00:23:28.380 --> 00:23:29.160

Gwen Childs. UAMS: Yeah, look.

383

00:23:29.220 --> 00:23:29.790

garciarilledgar: It's me.

384

00:23:31.080 --> 00:23:31.680

garciarilledgar: It's the

385

00:23:31.710 --> 00:23:33.510

garciarilledgar: Invitation to the reception which

386

00:23:33.930 --> 00:23:34.830

garciarilledgar: By the way, made

387

00:23:36.690 --> 00:23:38.130

garciarilledgar: This Fantastic. Thank you. So

388

00:23:38.130 --> 00:23:41.160

Joe Correia: Much it's been a real pleasure to

389

00:23:42.300 --> 00:23:46.860

Joe Correia: Have the opportunity to do something nice for somebody so wonderful.

390

00:23:47.310 --> 00:23:47.760

Hey,

391

00:23:48.900 --> 00:23:50.790

garciarilledgar: My pleasure. It's great to know your man.

392

00:23:52.080 --> 00:23:54.240

Gwen Childs. UAMS: The next gift it and you go

393

00:23:55.290 --> 00:23:57.150

Gwen Childs. UAMS: Back to small sack.

394

00:24:00.990 --> 00:24:01.380

garciarilledgar: Bag.

395

00:24:01.710 --> 00:24:02.730

Gwen Childs. UAMS: Yeah, the small bag.

396

00:24:02.760 --> 00:24:04.680

Gwen Childs. UAMS: Bag, bag. Yeah, yeah.

397

00:24:05.700 --> 00:24:06.090

Gwen Childs. UAMS: Yeah.

398

00:24:06.300 --> 00:24:07.590

Gwen Childs. UAMS: So that's basically

399

00:24:07.620 --> 00:24:21.330

Gwen Childs. UAMS: A gift certificate to the red door gallery and we'll be happy to know I'm not going to read the full resolution, but we want to pay for the framing of the emeritus resolution.

400

00:24:23.190 --> 00:24:25.380

Gwen Childs. UAMS: And so you can just take that gift certificates.

401

00:24:26.220 --> 00:24:32.340

Gwen Childs. UAMS: You're already have it framed and if you already have it framed, then you can use it for something else.

402

00:24:33.330 --> 00:24:33.870

tenable.

403

00:24:35.130 --> 00:24:37.200

Gwen Childs. UAMS: Finally, last but not least,

404

00:24:38.160 --> 00:24:47.190

Gwen Childs. UAMS: As a group, we're excited that perhaps you could be creative, for your own gift and so open that very carefully.

405

00:24:48.360 --> 00:24:48.810

Gwen Childs. UAMS: And

406

00:24:50.250 --> 00:24:53.400

Gwen Childs. UAMS: Have some very curious friends and

407

00:24:56.040 --> 00:24:57.600

garciarilledgar: Oh my goodness. Look at that.

408

00:24:57.930 --> 00:24:59.070

garciarilledgar: It was like academic

409

00:24:59.100 --> 00:25:12.690

Gwen Childs. UAMS: Study so so we we purchase gifts and and we also gave you money. Normally we take you out to dinner, but here you can use one of those that money we actually

410

00:25:13.950 --> 00:25:15.750

garciarilledgar: I'm happy to keep everything now.

411

00:25:19.050 --> 00:25:20.100

garciarilledgar: Thank you. Wow.

412

00:25:21.090 --> 00:25:23.340

Gwen Childs. UAMS: This is from a from the Department

413

00:25:25.860 --> 00:25:30.720

Gwen Childs. UAMS: was fantastic. So anyway, hope you enjoy it and

414

00:25:30.720 --> 00:25:32.820

Gwen Childs. UAMS: Listen, I'm good use for it.

415

00:25:36.450 --> 00:25:49.920

Gwen Childs. UAMS: But I'd like to do is open the floor to other people and I sort of thought organize this so I figured that we have some very busy administrators Dr Westfall

416

00:25:51.000 --> 00:25:52.020

Gwen Childs. UAMS: Dr. Ho.

417

00:25:54.180 --> 00:25:55.410

Gwen Childs. UAMS: Here is Dr. West

418

00:25:56.130 --> 00:26:07.710

Gwen Childs. UAMS: Thanks, Chris. So Dr. How would you like to say anything, on behalf of the way

426
00:26:51.120 --> 00:26:57.660
Shuk-mei Ho, UAMS: I'm really honor, I have to say, if I'm a very personal point of view. Congratulations, by the way.

427
00:26:58.920 --> 00:27:10.860
Shuk-mei Ho, UAMS: You were the first one who really was extending a welcome to me when I was living temporary on the sixth floor in a tiny corner office, which I love.

428
00:27:11.460 --> 00:27:26.010
Shuk-mei Ho, UAMS: And you are the one who show me all your all your folks I'm ashamed of that all the books that you have written and even gave me copies and I really see you as a leader as a role model.

429
00:27:26.310 --> 00:27:35.640
Shuk-mei Ho, UAMS: As the legacy legacy and you left a legacy here at joy MS that we cannot ever replace and we can love sent you more.

430
00:27:36.090 --> 00:27:54.180
Shuk-mei Ho, UAMS: And you are a role model. I don't know how any of us can really survive in this covert situation without thinking about you on a daily basis when I'm done, I thought about where I should I should get up and more so.

431
00:27:55.380 --> 00:28:01.470
Shuk-mei Ho, UAMS: Our work day, seven days a week is very well taken, and thanks so much.

432
00:28:02.160 --> 00:28:05.340
garciarilledgar: Thank you. I have, I have another book for you.

433
00:28:07.170 --> 00:28:07.620
garciarilledgar: Finding

434
00:28:08.430 --> 00:28:10.140
garciarilledgar: It. No, it's the, it's the

435

00:28:10.170 --> 00:28:10.740
garciarilledgar: New one

436

00:28:11.130 --> 00:28:19.200
garciarilledgar: That just came on, so I'll, I'll get I have a copy for you and I'll, I'll get it to you soon, and it's a pleasure to have you at the institution.

437

00:28:20.220 --> 00:28:24.420
garciarilledgar: These comments coming from somebody who's accomplished so much really

438

00:28:25.890 --> 00:28:28.560
garciarilledgar: A TREAT and I really appreciate your work.

439

00:28:28.920 --> 00:28:29.670
Thank you so much.

440

00:28:31.980 --> 00:28:32.130
Shuk-mei Ho, UAMS: Much

441

00:28:34.230 --> 00:28:44.280
Gwen Childs. UAMS: Let's see. It's Dr. Morrison here. I know he had said yes but he might have got away. So I, are there any other administrators that would like to

442

00:28:46.230 --> 00:28:48.780
Gwen Childs. UAMS: Happen thank him on behalf of the University

443

00:28:51.750 --> 00:28:52.110
Gwen Childs. UAMS: Hi.

444

00:28:52.230 --> 00:28:52.860
MessiasErickL@uams.edu: Hi, Gwen.

445

00:28:53.130 --> 00:28:54.120
MessiasErickL@uams.edu: Yes. Hi.

446

00:28:54.330 --> 00:28:56.220
MessiasErickL@uams.edu: Hey. Hey.

447

00:28:56.670 --> 00:29:09.480

MessiasErickL@uams.edu: So, I, I'm going to speak on behalf of the faculty of the College of Medicine, you have a mentor to so many faculty members over the years you have made people

448

00:29:11.670 --> 00:29:20.220

MessiasErickL@uams.edu: Funded you have made people get published, and I'm speaking only for other people, but for myself. You have been a mentor to me personally.

449

00:29:20.940 --> 00:29:28.710

MessiasErickL@uams.edu: I deeply appreciated that. And one thing I want to share with you because Glenn was asked was asking about administrators in the call.

450

00:29:29.310 --> 00:29:39.060

MessiasErickL@uams.edu: And I have to say that one day I was talking to our CIO, and he said, we're talking about, you know, being chair for the apartment, and he said, I'll never want to be a chair. I never wanted to be.

451

00:29:40.350 --> 00:29:43.410

MessiasErickL@uams.edu: And I know this for a fact it did not want to be a chair.

452

00:29:44.670 --> 00:29:51.600

MessiasErickL@uams.edu: Edgar's here Rio is actually one of the very, very rare people that are not in this for power.

453

00:29:53.790 --> 00:29:56.520

MessiasErickL@uams.edu: He is one of the old time scientists

454

00:29:57.090 --> 00:30:03.180

MessiasErickL@uams.edu: He isn't it for science and he isn't it for learning and for teaching and for mentoring.

455

00:30:04.380 --> 00:30:05.370

MessiasErickL@uams.edu: And I have to say.

456

00:30:06.600 --> 00:30:14.640

MessiasErickL@uams.edu: It is refreshing to see that. And it's been an honor working with you. And I think the privilege.

457

00:30:15.300 --> 00:30:23.490

MessiasErickL@uams.edu: You have to have had you in our, in our faculty group. I really, really, really what of my heart.

458

00:30:25.380 --> 00:30:30.390

MessiasErickL@uams.edu: You have my my respect and admiration and my gratitude. So thank you.

459

00:30:30.870 --> 00:30:31.500

garciarilledgar: Thank you.

460

00:30:32.070 --> 00:30:37.410

garciarilledgar: Thank you for those words that's fantastic coming from you. It's been a pleasure working with you all these years.

461

00:30:38.820 --> 00:30:40.350

garciarilledgar: And it's, you know,

462

00:30:42.120 --> 00:30:42.990

garciarilledgar: Can I respond

463

00:30:43.590 --> 00:30:45.060

Gwen Childs. UAMS: Well, of course, okay.

464

00:30:47.400 --> 00:30:48.390

garciarilledgar: Let me tell you something.

465

00:30:50.220 --> 00:30:55.530

garciarilledgar: Person that you see, you see the the head on the end the night

466

00:30:56.610 --> 00:30:59.850

garciarilledgar: Shot of the earth. That's Deanna dobrowski

467

00:31:00.690 --> 00:31:01.950

garciarilledgar: And her husband.

468

00:31:02.520 --> 00:31:04.050

garciarilledgar: Is an absolute genius.

469

00:31:04.080 --> 00:31:06.360

garciarilledgar: And he was the guy that

470

00:31:06.390 --> 00:31:12.300

garciarilledgar: Was my mentor and many, many years ago and he started this

471

00:31:13.020 --> 00:31:28.350

garciarilledgar: And his contributions to my career, I will never forget. And so I spent the rest of my professional life honoring his legacy and what you see at the top with all those people

472

00:31:29.250 --> 00:31:39.210

garciarilledgar: That are my collaborators, but also a lot of the graduate students. I've trained out of the people that I've worked with me. He was the one who who helped

473

00:31:40.590 --> 00:31:54.270

garciarilledgar: Set the, the, the love of science and the the ethical pursuit and the relentless Chase for the answer to the problem, and that has been

474

00:31:56.490 --> 00:32:08.190

garciarilledgar: A sheer pleasure my career, I, I think it's the it's I keep saying, you know, it should be harder than this, but it really not. It has not been

475

00:32:09.420 --> 00:32:18.540

garciarilledgar: A chore, and it has been wonderful working with all of you all the way through, you know, the people I worked with at UCLA.

476

00:32:19.080 --> 00:32:30.120

garciarilledgar: Who actually taught me how to run programs netbook will than just your whole so that by the time I got to to Little Rock, I was able to take on a center very quickly and then

477

00:32:31.290 --> 00:32:32.850

garciarilledgar: Through the third

478

00:32:33.030 --> 00:32:54.450

garciarilledgar: tier of Jane Pauley was the guy who recruited me to the to you a mess. And so he saw something and I think I, I paid off in his investment and when we finally got Gwen and Al Reese as as Dean of the College of Medicine. They were instrumental in helping

479

00:32:56.280 --> 00:33:01.290

garciarilledgar: Grow the to the next level to reach the really big money and to get

480

00:33:02.460 --> 00:33:08.070

garciarilledgar: The center often running. And so I really appreciate all of those people so

481

00:33:09.900 --> 00:33:13.050

garciarilledgar: I'm not going to share the money, but I really owe this

482

00:33:15.120 --> 00:33:20.250

garciarilledgar: To all of these people on whose shoulders. I'm standing. So thank you all very much.

483

00:33:21.750 --> 00:33:24.570

Gwen Childs. UAMS: Well, speaking as a chair you make

484

00:33:24.810 --> 00:33:26.250

garciarilledgar: Money for the zoom

485

00:33:26.640 --> 00:33:27.000

garciarilledgar: Sorry.

486

00:33:27.660 --> 00:33:29.100

Gwen Childs. UAMS: I was really happy.

487

00:33:30.780 --> 00:33:41.010

Gwen Childs. UAMS: To see your visionary. So we so we were talking about administrators moving into those people who have benefited from the CDN.

488

00:33:41.400 --> 00:33:41.820

Gwen Childs. UAMS: And

489

00:33:41.940 --> 00:33:50.370

Gwen Childs. UAMS: Then also includes students. And so, would anybody who has been who is who is directly benefited from the CDN and or

490

00:33:51.600 --> 00:33:56.340

Gwen Childs. UAMS: A Cobra investigator or something would like to chime in, just to let me know.

491

00:33:57.150 --> 00:33:59.310

PaitThomasG: When I when I like to say something. It's like

492

00:33:59.310 --> 00:33:59.730

Gwen Childs. UAMS: Me.

493

00:34:00.360 --> 00:34:01.440

PaitThomasG: Can you hear me okay

494

00:34:01.770 --> 00:34:08.160

PaitThomasG: Yeah, I've been running around, I found a computer. So here I am, Edgar. You can sit here.

495

00:34:10.200 --> 00:34:20.430

PaitThomasG: Listening to me for years. So I've gotta say something Edgar. It's been a great pleasure and I've enjoyed our time together, particularly your counsel and the meetings.

496

00:34:20.970 --> 00:34:39.810

PaitThomasG: And I can tell you, ladies and gentlemen, Eggers contributions to Jack Stevens Institute has been tremendous. He has provided counsel and support. He has educated residence and medical students Edgar has been one of the people. We've turned to in times of need.

00:34:41.190 --> 00:34:46.860

PaitThomasG: I will certainly miss our times there but congratulations as the marital status.

498

00:34:47.430 --> 00:35:07.020

PaitThomasG: I certainly look forward to your next career and I look forward to Edgar. Now listen, Edgar. I look forward to working with you about zombies. Yes, I believe it or not. We've spoken about zombies and how we can cure the world of these these zombies and we think we have an idea using

499

00:35:09.690 --> 00:35:17.970

PaitThomasG: But we're looking forward to cure in the world of zombies Edgar I'm I will join you on another occasion, um,

500

00:35:18.990 --> 00:35:39.480

PaitThomasG: You know it's tough to put in words. His contributions and you look at everything. Edgar has done, he has made us a place of pride a place that people wish to turn and he's contributed so greatly to the neurosciences as well as to various departments.

501
00:35:40.890 --> 00:35:42.660
PaitThomasG: So Edgar. Congratulations.

502
00:35:43.980 --> 00:35:44.880
PaitThomasG: Will see you soon.

503
00:35:45.240 --> 00:35:45.720
PaitThomasG: Okay.

504
00:35:46.350 --> 00:35:47.130
garciarilledgar: Thank you very much.

505
00:35:47.250 --> 00:35:48.060
garciarilledgar: I really appreciate

506
00:35:48.120 --> 00:35:49.020
PaitThomasG: You and

507
00:35:49.320 --> 00:35:49.710
See our

508
00:35:51.630 --> 00:35:52.140
PaitThomasG: Copy.

509
00:35:53.700 --> 00:35:54.510
garciarilledgar: Okay, okay.

510
00:35:56.610 --> 00:35:59.040
garciarilledgar: I still have a trilogy at the finish, but

511
00:35:59.340 --> 00:36:00.390
garciarilledgar: I'll get to it soon.

512
00:36:02.340 --> 00:36:05.280
PaitThomasG: All my best if you just give us a call.

513
00:36:05.880 --> 00:36:07.020
garciarilledgar: We'll do. Thanks.

514
00:36:07.230 --> 00:36:11.490

Whit Hall: Everybody thanks when when this is wet Agra, this is where

515

00:36:12.540 --> 00:36:19.950

Whit Hall: I cannot thank you enough. And many people may not realize this, but the babies of Arkansas.

516

00:36:20.490 --> 00:36:31.650

Whit Hall: have benefited from Edgar. There's probably 40 to 60 babies every year that survived because of Edgar's belief and telemedicine and regionalisation of neonatal care.

517

00:36:32.220 --> 00:36:42.330

Whit Hall: And Edgar because of your belief in us and belief in and and really desire and passion for saving babies lives.

518

00:36:42.720 --> 00:36:52.230

Whit Hall: There are many babies alive today that because of your vision would not be here. So, on behalf of the children and the babies in our state.

519

00:36:52.650 --> 00:37:03.540

Whit Hall: I want to thank you and I want to thank you for really benefiting my career as well and getting my my interest picked and telemedicine.

520

00:37:03.990 --> 00:37:21.990

Whit Hall: And all the wonderful work that it's done. And I have to say. Telemedicine has made more strides in the last two months than it has in the last two decades, thanks to covert, I guess, but nevertheless you have really started us out on the right foot. Thank you. Thank you. Thank you.

521

00:37:22.770 --> 00:37:26.040

garciarilledgar: Thanks. Listen, one of the things that that

522

00:37:27.450 --> 00:37:31.590

garciarilledgar: That I do have a talent for is identifying the right people.

523

00:37:32.700 --> 00:37:33.510

garciarilledgar: And you

524

00:37:34.560 --> 00:37:40.020

garciarilledgar: Angela page Emily stats, ya know, so

525

00:37:41.880 --> 00:38:00.360

garciarilledgar: James Mike Melanie the Linda's super mall Ralph and Helen, I mean all of these two in Charlotte, Jim. I'm, you know, I'm going to miss somebody and Francisco and Barrow. I mean, if you think about it.

526

00:38:01.740 --> 00:38:06.000

garciarilledgar: Hey, Bob, nice to see you. You've been hiding at Charisse

527

00:38:07.980 --> 00:38:10.980

garciarilledgar: Brennan motion. I mean, all of you guys. Stephanie.

528

00:38:12.060 --> 00:38:12.930

garciarilledgar: Have been

529

00:38:14.670 --> 00:38:20.100

garciarilledgar: A and xiaowei have been really proof that

530

00:38:21.360 --> 00:38:32.490

garciarilledgar: Paying a little attention and and giving people a little push, and a little help goes a long way. And so all of you obviously are going to go on.

531

00:38:33.030 --> 00:38:46.110

garciarilledgar: And pass it on. And so the legacy that you guys leave is something that I'm going to be very proud of. So I would ask you to do that. And so it's been great working with you, Alexis.

532

00:38:47.400 --> 00:38:56.820

garciarilledgar: And and all of the other guys. And, you know, muddy Salem or Alice's from I can't see her. I mean, I can't see. Susan

533

00:38:58.050 --> 00:38:58.950

garciarilledgar: Oh, there she is.

534

00:39:01.230 --> 00:39:01.710

garciarilledgar: Right.

535

00:39:02.370 --> 00:39:04.590

garciarilledgar: She's, are you in Baltimore.

536

00:39:05.160 --> 00:39:06.960

marisela morales: Yes, I'm good later.

537

00:39:07.320 --> 00:39:12.060

garciarilledgar: She's still at night. I'm Fantastic. Great. Welcome. Be Me neither.

538

00:39:12.570 --> 00:39:13.320

marisela morales: Can I see us.

539

00:39:14.460 --> 00:39:23.160

garciarilledgar: And Megan, I can't see her. Maybe I think she's I think she's near you. I think she's also in Baltimore with the VA.

540

00:39:23.490 --> 00:39:23.790

Meijun.Ye: Yeah.

541

00:39:24.210 --> 00:39:25.320

Meijun.Ye: I mean, Silver Spring.

542

00:39:25.830 --> 00:39:29.010

garciarilledgar: And Silver Springs. Fantastic. Well, nice to see you.

543

00:39:30.180 --> 00:39:30.870

garciarilledgar: Are not to you.

544

00:39:34.590 --> 00:39:50.730

Gwen Childs. UAMS: So Nancy reset she'd be here at five, and I was going, I told her I would open it up to students now to talk students and fellows in addition to, you know, let's keep going with the CO Bray beneficiaries as well.

545

00:39:51.270 --> 00:39:59.430

Gwen Childs. UAMS: But so jump in if you want to talk about it and make sure Nancy Reese gets a chance to talk because wasn't your first

546

00:40:00.720 --> 00:40:01.440

garciarilledgar: She was

547

00:40:02.850 --> 00:40:04.920

Gwen Childs. UAMS: She's coming on. Okay.

548

00:40:07.170 --> 00:40:08.190

Martin Hauer-Jensen: Say a few words.

549

00:40:09.810 --> 00:40:10.560

Gwen Childs. UAMS: Absolutely.

550

00:40:10.590 --> 00:40:11.880

Martin Hauer-Jensen: So, so, um,

551

00:40:13.320 --> 00:40:16.950

Martin Hauer-Jensen: It or I don't know if you remember in 1991

552

00:40:18.420 --> 00:40:19.920

Martin Hauer-Jensen: That's a long time ago.

553

00:40:21.510 --> 00:40:31.020

Martin Hauer-Jensen: And today I come to the idea to DMS from Norway, and I was flabbergasted that that was holds a little research going on.

554

00:40:32.280 --> 00:40:33.060

Martin Hauer-Jensen: In surgery.

555

00:40:34.230 --> 00:40:42.180

Martin Hauer-Jensen: That was where I was at a time. So I started, I want to start at curse the residents and then I'm

556

00:40:43.260 --> 00:40:55.620

Martin Hauer-Jensen: A lot more interested fellows and there and then the residents. But so, so I asked Edgar to give a few lectures and he didn't know me from Adam

557

00:40:56.220 --> 00:40:57.780

Martin Hauer-Jensen: And I didn't know him.

558

00:40:58.470 --> 00:41:08.040

Martin Hauer-Jensen: But he agreed immediately and and that was a very successful course because we had, we had sponsorship from the industry.

559

00:41:09.300 --> 00:41:12.750

Martin Hauer-Jensen: So, so they provided lunches and so on.

560

00:41:13.860 --> 00:41:16.110

Martin Hauer-Jensen: So that thing to can't do not

561

00:41:17.130 --> 00:41:26.040

Martin Hauer-Jensen: But, and I also have, I want to say thank you for something else you have done for me.

562

00:41:28.140 --> 00:41:42.000

Martin Hauer-Jensen: Because you have been very instrumental in in in helping me get the cobra grant that I have now and and so so that Marianna berm is going to take over and

563

00:41:43.500 --> 00:41:43.950

Martin Hauer-Jensen: So,

564

00:41:45.150 --> 00:41:49.290

Martin Hauer-Jensen: We have a little something for you. You can see what

565

00:41:50.730 --> 00:41:51.120

Martin Hauer-Jensen: Yeah.

566

00:41:53.550 --> 00:42:01.200

Martin Hauer-Jensen: Sure. Okay, so, so, so I can't offer you anything now, but I will. I will.

567

00:42:01.530 --> 00:42:02.100

garciarilledgar: Without me

568

00:42:03.990 --> 00:42:04.530

Martin Hauer-Jensen: That we

569

00:42:05.730 --> 00:42:06.360

Martin Hauer-Jensen: Can get

570

00:42:07.860 --> 00:42:15.690

Martin Hauer-Jensen: Better off God when you come visit me either here or in Santa Fe, so, so, so that's cheers

571

00:42:16.080 --> 00:42:16.410

Cheers

572

00:42:18.960 --> 00:42:19.530

garciarilledgar: Me a bottle.

573

00:42:23.490 --> 00:42:24.300
Gwen Childs. UAMS: It's great.

574

00:42:25.620 --> 00:42:26.010
Robert D Skinner: When

575

00:42:27.180 --> 00:42:28.350
Gwen Childs. UAMS: It wants to jump in.

576

00:42:28.470 --> 00:42:29.490
Robert D Skinner: Hello. Can you hear me.

577

00:42:31.050 --> 00:42:31.410
Robert D Skinner: Yeah.

578

00:42:31.590 --> 00:42:46.650
Robert D Skinner: Dinner, ya know money is benefit anymore than ideas from your relationship, working with Edgar. And if you work with somebody 15 hours a day, twice a week for about 22 years you get to know him pretty well.

579

00:42:49.140 --> 00:43:02.100
Robert D Skinner: So I've been following our reports on research gate and we worked in a number of areas and every one of those areas is getting lots of hits still all these years a lot. It's really amazing.

580

00:43:03.300 --> 00:43:15.750
Robert D Skinner: So I want to thank Edgar for working with me all those years and doing all the nice things. And I guarantee you that those ideas were mainly his that we worked with, I was

581

00:43:16.800 --> 00:43:19.110
Robert D Skinner: I was the dishwasher part of the time.

582

00:43:21.540 --> 00:43:22.410
garciarilledgar: That's not true.

583

00:43:22.830 --> 00:43:24.180
Robert D Skinner: He wouldn't wash a dish.

584

00:43:26.280 --> 00:43:32.250

Robert D Skinner: On something else to do it not throwing the knives in the dishwasher, which my mother always said, Don't do that.

585

00:43:33.270 --> 00:43:42.720

Robert D Skinner: Anyway, congratulations on your retirement. It's been fun to see how things have worked out with you. The last 10 or 12 years and best wishes for the future.

586

00:43:43.260 --> 00:43:58.800

garciarilledgar: Thanks. It was it was it was great working with you. I mean, that was a time when basically I arrived, and there was an empty room and I think I had an FM tape recorder and that was my

587

00:43:59.370 --> 00:44:00.840

garciarilledgar: My recruitment package.

588

00:44:01.290 --> 00:44:08.790

garciarilledgar: Yeah, and and it took off from there we you know we got three grants within a year and and

589

00:44:08.940 --> 00:44:10.530

garciarilledgar: The rest was history so

590

00:44:10.620 --> 00:44:12.120

garciarilledgar: My, my rate, working with

591

00:44:12.750 --> 00:44:17.670

Robert D Skinner: My recruitment package was an application to the Research Council for funds.

592

00:44:18.390 --> 00:44:20.100

garciarilledgar: Okay, so

593

00:44:21.390 --> 00:44:23.220

garciarilledgar: T Tom Bruce got a little more

594

00:44:23.220 --> 00:44:23.910

Generous

595

00:44:25.230 --> 00:44:26.760

garciarilledgar: With john paul is help

596

00:44:27.240 --> 00:44:29.280

Robert D Skinner: Yeah, okay. It's been great.

597

00:44:29.820 --> 00:44:30.450

garciarilledgar: Thanks, man.

598

00:44:31.650 --> 00:44:34.440

garciarilledgar: I, I think we should all meet we're Angus is

599

00:44:35.280 --> 00:44:37.380

Gwen Childs. UAMS: Yeah, I think you're right.

600

00:44:39.720 --> 00:44:41.100

Angus MacNicol: You have to bring your own booze. Oh.

601

00:44:41.220 --> 00:44:43.200

garciarilledgar: Oh, all right.

602

00:44:44.640 --> 00:44:48.330

Angus MacNicol: So, my dear actually wanted to thank Edgar's well congratulations.

603

00:44:48.720 --> 00:44:49.050

garciarilledgar: Thank you.

604

00:44:49.080 --> 00:44:57.660

Angus MacNicol: Um, and just like to acknowledge the help the CTA and gave my lap. At least you know we were going through a downturn and our funding and

605

00:44:58.470 --> 00:45:19.890

Angus MacNicol: We were fortunate to get pilot funds from the Cobra and the CDN and you know that really helped least for me, keep my lab together. And then, you know, we came back up and got grants back again and just interestingly, I find your timing retirement, a little dubious

606

00:45:21.120 --> 00:45:26.220

Angus MacNicol: Our grants are coming to an end. Again, you know, it's really just like you know what the fuck right

607

00:45:30.480 --> 00:45:39.480

Angus MacNicol: But anyway, I just, I just want to acknowledge it. You know, it's a testament to your mentorship, how many people you know are here on zoom right these are way back when.

608

00:45:39.960 --> 00:45:43.530

Angus MacNicol: And i think i think it's sort of, it's a statement of your

609

00:45:44.850 --> 00:45:48.900

Angus MacNicol: Your influence on people's careers. So graduations

610

00:45:49.470 --> 00:46:06.630

garciarilledgar: Thank you. Thank you. Listen, it and and enter it in, you're not, you're not the only one. If you identify somebody who is good. And then you just give them a little help and off they take off and and you know that 50,000 bucks that I gave you is turned into millions

611

00:46:08.220 --> 00:46:27.150

garciarilledgar: I gave 60,000 bucks to sue Griffin and you know she got millions. And so in you you identify the right people. You give them a little hand and off they go. And, and some people are on the way there and and some people will

612

00:46:28.350 --> 00:46:35.250

garciarilledgar: You know, take a little longer. But that's, that's perfect. And so it's been it's been great seeing people thrive.

613

00:46:37.320 --> 00:46:43.080

Gwen Childs. UAMS: So Nancy, did you want to say something she was here a few minutes ago. Nancy Reese.

614

00:46:43.320 --> 00:46:43.980

garciarilledgar: There she is.

615

00:46:44.070 --> 00:46:47.250

Nancy Reese: I'm here. Of course, of course, I have to say something so

616

00:46:47.550 --> 00:46:47.790

Yeah.

617

00:46:49.470 --> 00:46:51.300

Nancy Reese: Thanks, Edgar. Gosh.

618

00:46:52.500 --> 00:46:56.040

Nancy Reese: How many years ago was that 1994 when I graduated

619

00:46:57.180 --> 00:46:57.600

garciarilledgar: A lot

620

00:46:57.900 --> 00:47:06.450

Nancy Reese: Of money there. Yeah. Yeah. So, um, I was a much younger version of myself back in the day.

621

00:47:06.990 --> 00:47:07.590

Nancy Reese: And

622

00:47:07.950 --> 00:47:08.910

garciarilledgar: I look the same.

623

00:47:09.330 --> 00:47:11.700

Nancy Reese: Do I Oh you're so kind. You're too kind.

624

00:47:13.470 --> 00:47:16.950

Nancy Reese: But I think I was I was your first graduate student, right.

625

00:47:17.130 --> 00:47:28.950

Nancy Reese: Yes. Yes. Um, and I just remember there were all these archaic requirements that were in place when I became a graduate student and enter just said she's not doing that.

626

00:47:30.930 --> 00:47:33.780

Nancy Reese: Okay, I'm not doing it, which was fabulous.

627

00:47:35.430 --> 00:47:38.790

Nancy Reese: And trying to teach at UCA and

628

00:47:40.350 --> 00:47:42.750

Nancy Reese: Do the PhD program at the same time.

629

00:47:44.700 --> 00:47:45.960

Nancy Reese: He helped make that happen.

630

00:47:47.130 --> 00:47:49.980

Nancy Reese: We figured out how to get research done numbers and

631

00:47:51.690 --> 00:48:10.440

Nancy Reese: It made it work. So I appreciate everything that you did for me everything so helped me to, you know, progress at UCA, and then later on I came back and did some research with Lydia grew and Bob and got a little AR 15 grant

632

00:48:11.700 --> 00:48:15.510

Nancy Reese: And then became department chair. During that same time and

633

00:48:16.530 --> 00:48:34.950

Nancy Reese: That didn't work too well. So that he's mentored many of many folks that I have sent his way as well. So just has helped lots of folks in the physical therapy department at UCA, and I appreciate that very much. So, yeah.

634

00:48:35.700 --> 00:48:37.590

garciarilledgar: Great. It's great to see you.

635

00:48:38.310 --> 00:48:47.310

garciarilledgar: But in but I have to tell the story when when you first came to see me and I took you to the lab and I showed you the electro physiological setup.

636

00:48:48.420 --> 00:48:52.290

garciarilledgar: When you looked at all those wires. Your eyes watered.

637

00:48:55.830 --> 00:48:56.340

garciarilledgar: But you

638

00:48:56.580 --> 00:48:58.950

garciarilledgar: It took a while. But you mastered it and and

639

00:48:59.010 --> 00:48:59.850

And the fact is,

640

00:49:01.530 --> 00:49:14.280

garciarilledgar: I i thought she's crazy driving the Conway every day and back teaching and then coming to do experiments and it, it took you only five years to get a PhD.

641

00:49:15.540 --> 00:49:16.410

garciarilledgar: Which is

642

00:49:16.530 --> 00:49:32.820

garciarilledgar: Pretty spectacular, considering you are doing a full time job so that I thought that that was a stellar accomplishment and I'm glad that that things have worked out for you so well at UCA. I mean, plus you sent us Charlotte who's

643

00:49:32.940 --> 00:49:34.380

garciarilledgar: In any major

644

00:49:35.850 --> 00:49:36.420

Gwen Childs. UAMS: Yes.

645

00:49:38.070 --> 00:49:40.320

Gwen Childs. UAMS: Yes. Very nice.

646

00:49:41.580 --> 00:49:44.820

Gwen Childs. UAMS: So more students are beneficiary.

647

00:49:44.850 --> 00:49:45.660

garciarilledgar: More students

648

00:49:47.400 --> 00:49:48.240

Ang & Paige: Will go next.

649

00:49:48.480 --> 00:49:51.270

Gwen Childs. UAMS: Oh, good. We have a. Oh, yes.

650

00:49:52.800 --> 00:49:53.610

Gwen Childs. UAMS: To here.

651

00:49:53.910 --> 00:49:55.920

garciarilledgar: And the price of one.

652

00:49:56.910 --> 00:49:58.650

Ang & Paige: Rose. To begin, why

653

00:50:01.560 --> 00:50:02.730

Gwen Childs. UAMS: You're up here. Yeah.

654

00:50:02.820 --> 00:50:03.120

Ang & Paige: Yeah.

655

00:50:03.600 --> 00:50:04.020

I think

656

00:50:05.970 --> 00:50:10.620

Ang & Paige: I don't even know where to begin. I mean, you know, obviously, Edgar.

657

00:50:12.780 --> 00:50:17.490

Ang & Paige: You're the reason that we are where we are today. I'm going to start. I know I can't do this.

658

00:50:20.430 --> 00:50:29.100

Ang & Paige: You know, back to those summers. You know, when we were undergraduates and we were 18 when we started, yeah.

659

00:50:31.200 --> 00:50:39.330

Ang & Paige: Like a lifetime ago doing the P 13 recordings chasing rats around the lab and

660

00:50:41.520 --> 00:50:43.050

garciarilledgar: Then she the

661

00:50:43.080 --> 00:50:47.220

garciarilledgar: These two. There is also watered when they looked at the electrophysiologists

662

00:50:50.400 --> 00:50:57.180

Ang & Paige: I know and it's because you know i i was in your lab. And I thought, Oh my gosh, I cannot do electrophysiology

663

00:50:59.580 --> 00:51:06.870

Ang & Paige: And it's thanks to you that I ended up with Glenn and ended up in the place where I am, which is the best possible place I could be

664

00:51:07.380 --> 00:51:08.010

garciarilledgar: Well, I

665

00:51:08.070 --> 00:51:09.000

garciarilledgar: You know, it was

666

00:51:09.090 --> 00:51:13.350

garciarilledgar: It was, it was amazing that both of you came to see me.

667

00:51:13.350 --> 00:51:34.140

garciarilledgar: As undergraduates trying to do research and you both turned out to be basically brilliant women and and you guys are going to have spectacular careers in in in your divergent careers, but it will, you know, think about the chances of that you guys you know

668

00:51:35.400 --> 00:51:42.570

garciarilledgar: Came you know from Mississippi State or university, one of the two and

669

00:51:43.830 --> 00:51:44.220

garciarilledgar: And

670

00:51:44.280 --> 00:51:53.370

garciarilledgar: You would never think that both of you would end up in my lab, and then end up being so successful in science.

671

00:51:53.430 --> 00:52:00.450

Ang & Paige: Because you believe that is honestly. I mean, it's the truth. You believe in us and you taught us

672

00:52:01.860 --> 00:52:13.290

Ang & Paige: We are where we are today because of you. Well, and you you've supported us all the way through. I mean, you still support me today and and that's huge. You didn't just, you know, drop me after graduate school and so

673

00:52:14.670 --> 00:52:20.370

Ang & Paige: And you, you also took me to my first scientific meeting in Amsterdam.

674

00:52:21.780 --> 00:52:22.470

garciarilledgar: Oh,

675

00:52:25.980 --> 00:52:26.460

garciarilledgar: Yes.

676

00:52:26.970 --> 00:52:28.170

garciarilledgar: Happy. Happy. Happy.

677

00:52:30.060 --> 00:52:31.200

garciarilledgar: So remembers that

678

00:52:33.090 --> 00:52:33.630

garciarilledgar: When we have to

679

00:52:35.670 --> 00:52:38.070

Ang & Paige: Yeah, I mean those memories. My God.

680

00:52:39.750 --> 00:52:43.020

Ang & Paige: What an amazing start to to graduate school, so

681

00:52:44.100 --> 00:52:53.010

Ang & Paige: I will never forget. Yeah. All of those trips all the times in the labs you coming in every morning and scribbling stuff on the whiteboard with

682

00:52:58.260 --> 00:53:00.600

Gwen Childs. UAMS: Laughs laughing He must remember that.

683

00:53:03.000 --> 00:53:06.840

Ang & Paige: I would like to quickly tell my favorite story.

684

00:53:07.530 --> 00:53:26.370

Ang & Paige: It's a like 30 seconds story but experiment had gone terribly wrong that Angela and I were doing and I started crying. I was terribly upset about it and Dr. Skinner was trying to console me and Edgar walked into the lab and said, Bob, what did you do

685

00:53:31.530 --> 00:53:38.520

Ang & Paige: Edgar. It's not funny. This isn't a laughing matter. And then Edgar looks at me and goes page, there's no crying in neuroscience.

686

00:53:43.980 --> 00:53:44.460

Gwen Childs. UAMS: Story.

687

00:53:44.790 --> 00:53:45.810

garciarilledgar: That's my motto.

688

00:53:50.220 --> 00:53:53.100

Gwen Childs. UAMS: So Dr. Here, Edgar.

689

00:53:53.820 --> 00:53:56.640

Gwen Childs. UAMS: Oh, Dr. Anderson is here from Oklahoma.

690

00:53:57.180 --> 00:53:57.960

Oh, wonderful.

691

00:53:59.220 --> 00:54:00.300

Anderson, Robert E. (HSC): Regulations.

692

00:54:00.960 --> 00:54:01.500

Anderson, Robert E. (HSC): Yes.

693

00:54:02.070 --> 00:54:04.380

Anderson, Robert E. (HSC): Yeah, you're beating me by a month.

694

00:54:05.070 --> 00:54:05.610

garciarilledgar: Oh, yeah.

695

00:54:06.090 --> 00:54:14.340

Anderson, Robert E. (HSC): Yeah, I'm sorry I'm late. I had another zoom my last faculty meeting and cell biology. So July one. I'm a free man.

696

00:54:15.030 --> 00:54:17.100

garciarilledgar: Fantastic. Congratulations.

697

00:54:17.550 --> 00:54:27.870

Anderson, Robert E. (HSC): Well, congratulations to you. It's been a lot of fun. The last 15 years coming over there working with you on your center. I mean what you've done with the

698

00:54:28.350 --> 00:54:51.750

Anderson, Robert E. (HSC): With the center and what the center did for your campuses. Fascinating. It's just the fabulous. Look at all the people whose pictures I see here, and many of them benefited from what you did for them. And it's a tribute to you that all of us all of them showed up too late you on your retirement.

699

00:54:52.680 --> 00:54:58.890

garciarilledgar: Well that's great and and you know I really appreciate you showing up all those 15 years

700

00:54:59.250 --> 00:55:03.450

garciarilledgar: Every time you showed up and you came to help and and

701

00:55:04.500 --> 00:55:14.190

garciarilledgar: Your role in the external advisory committee was absolutely critical, and keeping the quality up and and keeping the right people funded. So I really appreciate your help.

702

00:55:14.820 --> 00:55:19.200

Anderson, Robert E. (HSC): Well, yeah. When Charles for that we met at a chairs meeting and she suggested

703

00:55:19.470 --> 00:55:26.310

Anderson, Robert E. (HSC): To you I think that I had a cold right here in Oklahoma, that I could be some help to you, perhaps

704

00:55:26.370 --> 00:55:43.920

Gwen Childs. UAMS: And I, I knew that getting you to together might be a good idea. I sent him everywhere to try to look at and talk to people powers that be and I mean he was a, you know, you're such a fantastic networker that yeah you put all the best together.

705

00:55:44.970 --> 00:55:45.420

garciarilledgar: Wonderful.

706

00:55:46.080 --> 00:55:48.600

Anderson, Robert E. (HSC): Well, I'll say one more thing for read your mind.

707

00:55:49.350 --> 00:56:04.650

Anderson, Robert E. (HSC): My daughter is a criminal defense attorney in Texas. She works for the public defender's office and their office only takes on capital murder cases. So it's real serious business. And I bought her a copy of your book.

708

00:56:05.070 --> 00:56:05.850

garciarilledgar: Well, thanks.

709

00:56:06.120 --> 00:56:09.180

Anderson, Robert E. (HSC): And send it to her and she says it's really very helpful.

710

00:56:10.080 --> 00:56:10.560

garciarilledgar: Wonderful.

711

00:56:10.590 --> 00:56:12.270

garciarilledgar: I haven't. Call me if she ever needs.

712

00:56:12.810 --> 00:56:13.860

garciarilledgar: Any, any help.

713

00:56:14.370 --> 00:56:18.930

Anderson, Robert E. (HSC): Okay, so you're able now to be an expert witness. Now that you may have some time.

714

00:56:18.930 --> 00:56:21.990

garciarilledgar: No bad. I'm happy to talk to her about where to go.

715

00:56:22.380 --> 00:56:25.230

garciarilledgar: Okay, you know, I don't want to work that hard anymore.

716

00:56:26.190 --> 00:56:27.300

garciarilledgar: Expert witnessing

717

00:56:27.630 --> 00:56:29.130

garciarilledgar: Is is

718

00:56:30.990 --> 00:56:32.250

garciarilledgar: Is too.

719

00:56:33.570 --> 00:56:44.160

garciarilledgar: Time consuming and you know all that testimony, I did. And in at the federal courthouse in DC or for all those anti terrorism cases that was very stressful.

720

00:56:45.720 --> 00:56:47.610

garciarilledgar: So I'm not going to do that again.

721

00:56:49.350 --> 00:56:51.420

Anderson, Robert E. (HSC): I'll never called you for advice in

722

00:56:51.840 --> 00:56:53.400

garciarilledgar: Okay, anytime

723

00:56:53.970 --> 00:56:54.450

Okay.

724

00:56:56.220 --> 00:56:57.030
Gwen Childs. UAMS: Sounds great.

725

00:56:57.690 --> 00:57:07.050
cyates: Edgar. I just wanted to say that you have an amazing ability to convince students that research is what they want to do. I came to your office.

726

00:57:07.890 --> 00:57:20.640
cyates: You from agreeable and Nancy Reese both recommended that I come and talk to you. So I left your office signed up for classes and already enrolled when I had just come to visit. So you have a

727

00:57:22.260 --> 00:57:33.900
cyates: Convincing people that this is what they want and I just have benefited so much I love teaching neuroscience and that wouldn't have been possible without my degree. So I really appreciate what you've done for your students.

728

00:57:34.950 --> 00:57:36.780
garciarilledgar: And it's been a pleasure working with you.

729

00:57:37.830 --> 00:57:43.290
garciarilledgar: You did great work. And I'm looking forward to those papers on on concussion.

730

00:57:44.970 --> 00:58:01.260
cyates: Well, I also really enjoyed all my time with with Hall. So thank you for sharing me up with him. We had some really, really great years infant pain research and so I have a friend for life and wet. And so that has been great to have great collaborators.

731

00:58:02.490 --> 00:58:04.170
garciarilledgar: Wonderful, thank you. Alright.

732

00:58:06.030 --> 00:58:16.410
Brennon Luster: Hagar Brennan here. I wanted to say congratulations on their retirement well deserved. You've poured so much and there's so many people and I'm certainly no exception to that.

733

00:58:17.070 --> 00:58:24.270
Brennon Luster: And, you know, really fortunate to have had you as a mentor, particularly that early in my life because you show me a lot of

734

00:58:24.810 --> 00:58:33.030

Brennon Luster: Things that you know I've carried with me throughout the years and one has been how selfless and generous that you've been you've always put others before you

735

00:58:33.510 --> 00:58:36.900

Brennon Luster: And another lesson that I really care with that I've learned from you is

736

00:58:37.740 --> 00:58:53.370

Brennon Luster: I've never, I've watched you know obstacles coming your way. And you've never let them stop. You don't take no for an answer. And so I've carried a lot of those lessons with me along the way, very fortunate to have had you and your belief in me. So congratulations well deserved.

737

00:58:54.360 --> 00:59:04.110

garciarilledgar: Thank you. Thank you. I really appreciate it. I just I the only thing that I don't want you to do is I don't want you in so fighting

738

00:59:04.530 --> 00:59:05.040

In the street.

739

00:59:09.930 --> 00:59:11.700

Brennon Luster: I can't make any promises.

740

00:59:22.530 --> 00:59:23.640

garciarilledgar: How's the baby Nestle

741

00:59:26.670 --> 00:59:28.770

Neso Kezunovic: Oh, baby.

742

00:59:32.190 --> 00:59:33.810

Neso Kezunovic: You called me out.

743

00:59:36.300 --> 00:59:36.810

Gwen Childs. UAMS: Yeah, I guess.

744

00:59:48.870 --> 00:59:49.440

garciarilledgar: Cutting on

745

00:59:49.500 --> 00:59:50.040

Neso Kezunovic: Here I

746

00:59:51.330 --> 00:59:52.620

garciarilledgar: keep cutting out Nestle

747

00:59:53.490 --> 00:59:55.650

garciarilledgar: Hello there, you are you back.

748

00:59:58.890 --> 00:59:59.400

garciarilledgar: Maybe not.

749

01:00:00.240 --> 01:00:01.860

garciarilledgar: All right, anyway.

750

01:00:02.370 --> 01:00:03.390

garciarilledgar: All right, well,

751

01:00:07.110 --> 01:00:08.130

garciarilledgar: Stephanie. Where are you

752

01:00:15.300 --> 01:00:19.170

Neso Kezunovic: Okay. All right. Anyway, congratulations. Very good.

753

01:00:19.410 --> 01:00:20.160

garciarilledgar: Thanks, man.

754

01:00:21.300 --> 01:00:23.820

Neso Kezunovic: All right. Somebody, somebody I know. I know. I fear.

755

01:00:25.260 --> 01:00:27.060

Stephanie Myal: Will go called me out.

756

01:00:29.220 --> 01:00:35.550

Stephanie Myal: There, I have to say, you call it at every point in my career when I started working with you. What was in May 2010

757

01:00:37.350 --> 01:00:40.140

Stephanie Myal: I still am mystified about what you saw me. But you said

758

01:00:41.910 --> 01:00:47.160

Stephanie Myal: You're interested in neuroscience, where you need to do is go to NIH and what you need to do is MD PhD.

759

01:00:48.240 --> 01:00:59.400

Stephanie Myal: So you hook me up with road wise, I went to NIH for post back. I had a blast. And I, yeah, I decided I really did want to do and the PhD. That's, that's what I'm doing now pit. I'm working on writing my dissertation work with

760

01:00:59.790 --> 01:01:05.760

Stephanie Myal: House and barf on cortical ensembles turns out I really love patch clamping. I think you called that too.

761

01:01:07.620 --> 01:01:11.790

Stephanie Myal: I couldn't have done any of it without you. You believed in me and

762

01:01:13.860 --> 01:01:19.860

Stephanie Myal: I can't, I can't describe what that means. Thank you so much, you know, supported me the whole way.

763

01:01:21.690 --> 01:01:24.480

garciarilledgar: Well, thanks. That's fantastic. And, and, you know,

764

01:01:24.870 --> 01:01:26.070

garciarilledgar: You you

765

01:01:27.360 --> 01:01:35.910

garciarilledgar: You're instantly you one of these people. That was easy. You I knew exactly how bright. You were the second I met you and so

766

01:01:36.480 --> 01:01:51.240

garciarilledgar: It was, it was very simple to figure out, you know, what advice to give you and it's worked out really nicely. So it's and and you've made me proud with actually very little effort that

767

01:01:52.650 --> 01:02:00.300

garciarilledgar: You know, so I, you've got a huge career ahead of you. And, and I wish you every success.

768

01:02:01.050 --> 01:02:03.330

Stephanie Myal: Thank you. I still think you're being too modest go

769

01:02:05.160 --> 01:02:06.480

Stephanie Myal: Out of your way for all of us.

770

01:02:06.540 --> 01:02:07.770

Stephanie Myal: And that's me so much.

771

01:02:08.130 --> 01:02:12.180

Gwen Childs. UAMS: My pleasure. So, so, Edgar Jim Shafi

Gwen Childs. UAMS: Okay, there's

775

01:02:29.520 --> 01:02:31.050

garciarilledgar: That's why I couldn't talk to him.

778

01:02:40.650 --> 01:02:41.340

LusterLindaD: Yeah.

790

01:03:56.160 --> 01:03:59.670

Meijun.Ye: Yeah, I need to be very similar, but I really want to thank you because

791

01:04:02.070 --> 01:04:08.910

Meijun.Ye: I think when I was in graduate school. The first time was really something about campaigns came. I was thinking, oh, I really

792

01:04:09.450 --> 01:04:21.000

Meijun.Ye: Like, then I'm really intrigued and so it kind of like you make my dream come true. And I finally grasped the technique and applied it to all those kind of scientific questions.

793

01:04:23.220 --> 01:04:23.580
Cool.

794

01:04:28.290 --> 01:04:29.370
Meijun.Ye: Yeah, I really hadn't

795

01:04:32.160 --> 01:04:32.610

801

01:04:45.030 --> 01:04:45.540

802

01:04:46.860 --> 01:04:47.760
Meijun.Ye: I wasn't you may

803

01:04:51.450 --> 01:04:54.030
Ang & Paige: You're making us cry, even after all these

804

01:04:54.480 --> 01:04:55.080
Years.

805

01:05:02.820 --> 01:05:05.370

garciarilledgar: You know, it's wonderful to see you guys. And

806

01:05:07.020 --> 01:05:08.400

garciarilledgar: And I guess that the

807

01:05:09.540 --> 01:05:14.070

garciarilledgar: Website is contingent la was wondering how things were down there.

808

01:05:16.140 --> 01:05:18.750

garciarilledgar: Anyway, um, I don't see them.

809

01:05:19.470 --> 01:05:21.390

Gwen Childs. UAMS: Yeah, they sign up for

810

01:05:22.140 --> 01:05:23.970

garciarilledgar: I don't see them.

811

01:05:24.990 --> 01:05:27.000

garciarilledgar: A lot Laura, are you still there.

812

01:05:29.670 --> 01:05:30.750

Gwen Childs. UAMS: Yeah, they make

813

01:05:30.960 --> 01:05:35.670

garciarilledgar: These are there. Yeah, I was wondering how Paris is doing. Hey, look, this here. They run

814

01:05:36.780 --> 01:05:38.130

garciarilledgar: And Elise, nice to see you.

815

01:05:40.770 --> 01:05:41.190

AROD: Yeah.

816

01:05:43.350 --> 01:05:48.780

AROD: I definitely just wanted to come and pay my my respects and gratitude.

817

01:05:50.220 --> 01:05:54.450

AROD: I don't think many people know and fully understand

818

01:05:55.770 --> 01:06:01.290

AROD: The hurdles. We go through and I, I just really, sincerely thank you for

819

01:06:03.180 --> 01:06:13.950

AROD: The weekends, you spent time on a weekend to help me out. And that meant a lot to me and you. I felt like we only met several times and for you.

820

01:06:14.520 --> 01:06:25.740

AROD: To spend so much personal time on a weekend to help me when I met you in person, a handful of times just shows me the caliber of person that you are

821

01:06:27.810 --> 01:06:35.760

garciarilledgar: It was a pleasure and and you know that, like I said, I'll use. You see the quality and people you see

822

01:06:36.390 --> 01:06:37.440

garciarilledgar: The intelligence.

823

01:06:37.650 --> 01:06:53.910

garciarilledgar: And it doesn't take much to to help them out and and it's a shame if you don't. That's why you go out of your way to help people out and and and that's, you know, it's a pleasure to me. It's a pleasure.

824

01:06:56.190 --> 01:07:08.190

PaitThomasG: Hey girl, I wanna, I want to let people know you know you have not only taught graduates neuroscience, but you you opened up your lab go high school students.

825

01:07:09.750 --> 01:07:17.190

PaitThomasG: And I can tell you that has made a significant contribution those students have gone on to and done some remarkable things

826

01:07:18.000 --> 01:07:34.200

PaitThomasG: And they have all enjoyed their time with you and to open up a lab to summer occasion with a high school student is incredibly special because I know it takes time, energy, and you scratch your head a lot

827

01:07:35.790 --> 01:07:37.950

PaitThomasG: I wonder what the heck they're doing

828

01:07:39.390 --> 01:07:49.530

PaitThomasG: It takes a very special person to open up their lab and to share with them their experience and knowledge and that has benefited greatly

829

01:07:49.950 --> 01:08:01.740

PaitThomasG: High school students and they've gone on to other fine institutions and are doing well. So again, on behalf of their tax and T Stevens Institute and all your contributions.

830

01:08:02.940 --> 01:08:07.200

PaitThomasG: We will miss you. But we look forward to the next chapter on my best friend.

831

01:08:07.770 --> 01:08:21.300

garciarilledgar: Thanks. Thanks. Some of you may not know but but the jack Stevens Institute funded every year funded high school students to come and work in my lab and various labs across

832

01:08:21.840 --> 01:08:33.390

garciarilledgar: Across you a mass for all those years. And so, and these these kids. I mean, some of them went on to be Rhodes scholars and real stars in their own right.

833

01:08:34.440 --> 01:08:36.540

garciarilledgar: One of them. I remember

834

01:08:38.160 --> 01:08:38.550

garciarilledgar: That

835

01:08:39.810 --> 01:08:49.710

garciarilledgar: She was working in, in, in an adjacent lab. So I didn't have much contact with her. But at the end of the summer, I wanted to sit down with her and asked her about how her experience was.

836

01:08:50.460 --> 01:08:59.730

garciarilledgar: And she was a sharp kid, and she was raised by a single mother who, who, who was a nurse. And I said, Well, what are you going to do

837

01:09:01.110 --> 01:09:12.750

garciarilledgar: After college, what are you thinking. And she said, well, you know, maybe I'll just go to nursing school. And I said, Why are you going to nursing school and she said,

838

01:09:14.070 --> 01:09:19.620

garciarilledgar: Well, why not, is it, why don't you go to medical school. I mean, you're smart enough to go to medical school.

839

01:09:20.640 --> 01:09:21.210

garciarilledgar: And

840

01:09:23.010 --> 01:09:26.340

garciarilledgar: And that was it. We parted ways she that was the end of the summer.

841

01:09:28.020 --> 01:09:29.280

garciarilledgar: Eight years later.

842

01:09:30.390 --> 01:09:43.260

garciarilledgar: She was responsible for a red sash award and she wanted me at the graduation. She went through college, and she went through medical school and she's now a GI doc in town.

843

01:09:43.770 --> 01:09:45.270

garciarilledgar: And she has been she's got three or

844

01:09:45.270 --> 01:09:50.370

garciarilledgar: Four kids and she's a practicing physician has had a tremendous career.

845

01:09:52.500 --> 01:09:53.610

garciarilledgar: In medicine,

846

01:09:54.990 --> 01:10:03.930

garciarilledgar: And I was the first guy to actually tell her that she was smart enough, and you know, people just don't do that enough

847

01:10:04.980 --> 01:10:14.880

garciarilledgar: They, they don't see the potential in people and help them out. So it was a pleasure working with all those students.

848

01:10:15.990 --> 01:10:16.440

garciarilledgar: But that

849

01:10:16.560 --> 01:10:18.990

garciarilledgar: Particular example is is really spectacular.

850

01:10:19.650 --> 01:10:27.690

Gwen Childs. UAMS: So Dr. Helen vanish and Linda Larson prior just joined. So I just wasn't sure. You know, you've got to new

851

01:10:28.260 --> 01:10:28.950

And there's motion.

852

01:10:31.140 --> 01:10:31.470

Gwen Childs. UAMS: To new

853

01:10:32.280 --> 01:10:33.480

Helen Benes Kaiser: I wanted to

854

01:10:33.780 --> 01:10:34.590

wish you luck.

855

01:10:35.820 --> 01:10:36.210

Helen Benes Kaiser: And

856

01:10:37.590 --> 01:10:38.130

Helen Benes Kaiser: Tidy

857

01:10:38.970 --> 01:10:39.840

garciarilledgar: We have three Linda

858

01:10:41.070 --> 01:10:41.310

Helen Benes Kaiser: Linda

859

01:10:41.490 --> 01:10:42.780

garciarilledgar: Linda. Linda Larson.

860

01:10:43.530 --> 01:10:45.030

Gwen Childs. UAMS: Right, right. That's right.

861

01:10:45.480 --> 01:10:53.820

Helen Benes Kaiser: I wanted to wish you well Edgar and tell you that retirement is great. I know that you will enjoy it tremendously and

862

01:10:54.900 --> 01:11:00.630

Helen Benes Kaiser: I'm sure that many people will still benefit from all the great things you'll be doing in your retirement.

863

01:11:01.680 --> 01:11:04.170

garciarilledgar: Thanks. Hi. I hope to oh

864

01:11:04.500 --> 01:11:13.890

Linda Larson-Prior: Hi, Edgar. I just like I'm sorry I'm late. I was on having to write posters, but I'm so glad I caught you. So I could wish you all the best.

865

01:11:14.340 --> 01:11:17.430

garciarilledgar: Thank you. Thank you. It's great. I really appreciate your time.

866

01:11:17.760 --> 01:11:20.280

garciarilledgar: It's been great working with you, especially

867

01:11:20.550 --> 01:11:23.160

garciarilledgar: Now that you've taken over, helping to

868

01:11:25.140 --> 01:11:26.430

garciarilledgar: Take off like a rock.

869

01:11:27.060 --> 01:11:31.140

Linda Larson-Prior: Yeah. Did you hear he's got he got one grant funded and got another one in

870

01:11:31.740 --> 01:11:36.600

garciarilledgar: Yes. And, and thank you, thanks to your, to your efforts and

871

01:11:37.770 --> 01:11:40.260

garciarilledgar: It's really, really nice to hear that.

872

01:11:40.650 --> 01:11:51.420

Tuhin Virmani: Well thanks again for like all the help of taking me under your wing over the last, you know, four or five years and getting me on the modafinil bus. Hopefully we'll

873

01:11:52.860 --> 01:11:55.440

Tuhin Virmani: Hear from same treatment for Parkinson's.

874

01:11:56.130 --> 01:11:57.930

Tuhin Virmani: Freezing soon when we can get that

875

01:11:58.020 --> 01:11:59.850

Tuhin Virmani: Trial written up so

876

01:12:00.870 --> 01:12:10.440

Tuhin Virmani: It's just been amazing learning from you. There's always new things to learn from every mentor and it's been it's just been a pleasure.

877

01:12:11.490 --> 01:12:16.560

Tuhin Virmani: Having those frequent meetings with you over the past four years and I'm going to miss them.

878

01:12:17.940 --> 01:12:20.460

garciarilledgar: And don't forget to invite me to the Christmas party.

879

01:12:20.790 --> 01:12:21.360

Tuhin Virmani: No. Yes.

880

01:12:23.730 --> 01:12:25.320

garciarilledgar: The food is spectacular.

881

01:12:26.820 --> 01:12:27.630

garciarilledgar: That is house.

882

01:12:28.020 --> 01:12:30.150

Gwen Childs. UAMS: Hopefully we can still have parties, then

883

01:12:31.950 --> 01:12:32.310

garciarilledgar: Yeah.

884

01:12:32.670 --> 01:12:34.230

Gwen Childs. UAMS: With more than 10 people that is

885

01:12:35.910 --> 01:12:39.510

LusterLindaD: Not the Garcia. I just wanted to say something.

886

01:12:41.610 --> 01:12:48.930

LusterLindaD: We've had a long, long tenure together when you first heard me. I was actually afraid to work for you.

887

01:12:50.370 --> 01:13:00.690

LusterLindaD: I didn't believe in myself and I really was scared. And I was like, What on earth have that done, but when I got to work for you. You just really believed in me and

888

01:13:02.250 --> 01:13:12.240

LusterLindaD: I was like, who is this man that believes I can do everything, you know, and I was like, I don't think I can do everything, but because you just really, really believed in me.

889

01:13:12.870 --> 01:13:28.380

LusterLindaD: And you had great confidence in me. You gave me a sense of purpose and accomplishment and confidence and it has just never left me. And so you just don't realize the impact that you have on everyone.

890

01:13:29.370 --> 01:13:38.430

LusterLindaD: You are so distinguished in my book, but you're so approachable and I just love that about you and I just love the fact the way that you

891

01:13:39.150 --> 01:13:49.800

LusterLindaD: Mentor and you collaborate with others. I love your selfless acts and your selfless be I've seen it over and over and over again. I can remember.

892

01:13:50.490 --> 01:13:59.250

LusterLindaD: Working. You have to three months. And you told me you were going on sabbatical. And I see it well. Dr. Garcia real who's in charge. He said, You are

893

01:14:02.010 --> 01:14:12.720

LusterLindaD: And he said, Linda, you are in charge. And so I just want to thank you for having confidence in me for making me I'm

894

01:14:13.410 --> 01:14:29.040

LusterLindaD: Really more polished administrator, I feel with the confidence that you had in me. I can go to work for anyone now and do a excellent job because of a on everything you've instilled in me and the way you made me believe in myself.

895

01:14:30.090 --> 01:14:42.750

LusterLindaD: Not only were you, my boss but we become friends. And it's a friendship that our chairs for life. I want to say congratulations. I wish you only the best to out your entire life. Thank you so much.

896

01:14:42.990 --> 01:14:49.350

garciarilledgar: Thank you, Linda. It's been spectacular working with you and plus you introduced me to Linda to

897

01:14:50.850 --> 01:14:58.920

LusterLindaD: Yes. Hi. I'm here too and I just wanted to say that when I came on board. I was just scared.

898

01:15:02.160 --> 01:15:04.770

LusterLindaD: I thought, Oh my God, what is this all about

899

01:15:05.520 --> 01:15:12.600

LusterLindaD: And I've always wanted to do grants, but this has been such an opportunity for me and the exposure of

900

01:15:13.380 --> 01:15:31.620

LusterLindaD: Working with the cobra. And most of all, working with you Dr. Garcia real. I really appreciate your confidence in me and given me the opportunity to do for what I did in the office and I hope that I made you proud, you made me feel good.

901

01:15:32.910 --> 01:15:47.700

LusterLindaD: And and confident and I you know I was about to retire when you, when I came to you. So you gave me a short spin that meant the world to me it really, really did.

902

01:15:48.120 --> 01:15:59.730

LusterLindaD: And I think that was the best 18 years of my working career, if I can say I mean 18 months of my working career and I just appreciate it and congratulations on your retirement.

903

01:16:00.840 --> 01:16:02.790

LusterLindaD: And your Emeritus and

904

01:16:03.900 --> 01:16:06.360

LusterLindaD: Just many, many great years in the future.

905

01:16:06.960 --> 01:16:14.160

garciarilledgar: Thank you so much. Thank you. It was a pleasure working with you, you know, the thing is that

906

01:16:17.280 --> 01:16:20.610

garciarilledgar: What it was like pushing somebody in the pool.

907

01:16:23.010 --> 01:16:26.070

garciarilledgar: And the swim or the drone.

908

01:16:26.730 --> 01:16:28.950

garciarilledgar: I knew you guys wouldn't drown and

909

01:16:29.130 --> 01:16:30.870

garciarilledgar: The fact is that

910

01:16:32.250 --> 01:16:43.260

garciarilledgar: You have you have the courage to get up and and and if you don't know what you're doing, then you find out and off you go. So you guys who did fantastic work.

911

01:16:43.950 --> 01:17:04.080

garciarilledgar: And you kept things running, which allowed me to do all kinds of other things you know the the reason why I could beat with students on an everyday basis was because I didn't have all the administrative mode on my back that you guys lifted up their back Francisco Barrow.

912

01:17:04.380 --> 01:17:05.820

garciarilledgar: How are things in one side is

913

01:17:06.960 --> 01:17:07.950

garciarilledgar: You guys okay

914

01:17:10.050 --> 01:17:12.960

Gwen Childs. UAMS: So can you turn on your microphones.

915

01:17:15.900 --> 01:17:17.970

Vero: There are there are coming on all

916

01:17:19.950 --> 01:17:40.350

Vero: Things are improving with the Caribbean my team and we are in indoors, because you know we we started really early and we are. I just finished teaching a class allowed a lot of attention receptors, five minutes ago. So we're coming along.

917

01:17:40.890 --> 01:17:42.150

garciarilledgar: Good. How are the kids.

918

01:17:43.200 --> 01:17:44.310

garciarilledgar: They're not kids. They're big.

919

01:17:45.270 --> 01:17:46.530

Vero: They're not a huge

920

01:17:47.670 --> 01:17:50.970

Vero: Huge Dante finishing high school this year.

921

01:17:52.320 --> 01:17:56.280

Vero: Already starting this year. So they are on and off.

922

01:17:57.180 --> 01:18:01.890

garciarilledgar: Great. Well, say hello to them. It's great to see you guys. You look great.

923

01:18:04.410 --> 01:18:15.090

Vero: So it's very important to tell you that it's been a pleasure to work with you guys know you knowing you by Miss it's been really nice.

924

01:18:16.980 --> 01:18:21.210

Vero: Fun and we have to blame or laughing for that. Yeah.

925

01:18:22.080 --> 01:18:25.170

garciarilledgar: Well, you know, you have to, you have to get hooked on a certain drug

926

01:18:29.460 --> 01:18:32.070

garciarilledgar: Listen, if you guys. You guys were

927

01:18:33.240 --> 01:18:38.460

garciarilledgar: Pretty amazing collaborators, for many years, and I was able

928

01:18:38.730 --> 01:18:39.090

Vero: To you.

929

01:18:39.510 --> 01:18:42.570

garciarilledgar: Know guys train other people

930

01:18:43.470 --> 01:19:00.630

garciarilledgar: So that I could duplicate myself through you guys. And so it was it was it was a way of getting a bigger bang for the buck and you guys were such a wonderful investment and now

931

01:19:01.770 --> 01:19:03.090

garciarilledgar: You've got this background.

932

01:19:04.470 --> 01:19:17.490

garciarilledgar: Of scientific accomplishment, so that you guys are really on the threshold of the next level and it's going to be very, very interesting. All the HR tech stuff you guys are doing. That's

933

01:19:17.700 --> 01:19:19.890

garciarilledgar: That's where all the action is going to be over the next

934

01:19:20.220 --> 01:19:21.120

510 years

935

01:19:22.440 --> 01:19:23.790

Vero: Thank you so

936

01:19:24.090 --> 01:19:24.480

garciarilledgar: With that

937

01:19:24.840 --> 01:19:29.130

Gwen Childs. UAMS: There's a, there's an email from our road, a

938

01:19:29.640 --> 01:19:30.510

garciarilledgar: Lot and at least

939

01:19:31.140 --> 01:19:38.190

Gwen Childs. UAMS: I know. So okay, so how can we should touch with Dr. Garcia can will he be keeping an active eat you. A Ms.

940

01:19:38.220 --> 01:19:55.380

Gwen Childs. UAMS: Email. And the answer is yes. If he wants it. We just have to. He's a professor emeritus and we just have to make certain that he it gets renewed every year and we will do that will will fake one makes that it doesn't get

941

01:19:56.220 --> 01:19:57.510

garciarilledgar: As much money every year.

942

01:20:01.620 --> 01:20:03.120

Gwen Childs. UAMS: Well, we can discuss that I'm

943

01:20:04.410 --> 01:20:05.820

garciarilledgar: I'm not mercenary or anything.

944

01:20:06.120 --> 01:20:06.570

Right.

945

01:20:07.740 --> 01:20:10.350

Gwen Childs. UAMS: To is Tiffany still here. She

946

01:20:10.530 --> 01:20:14.310

Gwen Childs. UAMS: She said she wrote, I read your message, Tiffany.

947

01:20:14.580 --> 01:20:15.750

Tiffany Huitt: Oh, absolutely.

948

01:20:16.320 --> 01:20:17.820

Gwen Childs. UAMS: And I read it.

949

01:20:18.900 --> 01:20:30.630

Tiffany Huitt: Oh, I was just going to thank you again for your patience and your diligence and your investment and not just the researchers, but those who knew from day one. We wanted to be educators

950

01:20:30.960 --> 01:20:43.980

Tiffany Huitt: And so like it like Charlotte said you are definitely good salesperson you convinced this medical Illustrator to take a job. And so it has been nothing but spectacular ever since then and

951

01:20:44.670 --> 01:20:54.480

Tiffany Huitt: We, we thank you very much. I think what I just wanted to underscore, is it one of your lasting legacies is certainly through the education of the generations that are going to come

952

01:20:55.350 --> 01:21:07.170

Tiffany Huitt: Up. I am so inspired and impressed us to think about all the different health professions that you have touched certainly medicine nursing but OT, PT Pa.

953

01:21:08.490 --> 01:21:15.690

Tiffany Huitt: And as when mentioned all of the different disciplines and so thank you for that. And it's been a great pleasure and honor

954

01:21:16.800 --> 01:21:21.480

garciarilledgar: That's great. It was wonderful, working with you. And I remember that.

955

01:21:22.650 --> 01:21:23.220

garciarilledgar: Your

956

01:21:24.300 --> 01:21:27.600

garciarilledgar: The papers that we, you and I publish had the best figures.

957

01:21:30.180 --> 01:21:47.610

garciarilledgar: You know she her illustrations were just so spectacular WAS FANTASTIC. AND I'M GLAD YOU'RE DOING SO WELL I saw your, your name and the news and and you're you're you're getting there. You're, you're practically you're, you know,

958

01:21:50.340 --> 01:21:50.640

garciarilledgar: Reading

959

01:21:54.450 --> 01:21:54.780

Gwen Childs. UAMS: So,

960

01:21:54.870 --> 01:21:56.640

Helen Benes Kaiser: You have to go. I just

961

01:21:57.180 --> 01:21:58.470

Helen Benes Kaiser: Wanted to say hello.

962

01:21:58.740 --> 01:22:00.840

Helen Benes Kaiser: Today is Tom's birthday and I'm

963

01:22:01.800 --> 01:22:02.400

garciarilledgar: Happy birthday.

964

01:22:02.760 --> 01:22:07.290

Helen Benes Kaiser: Well, thank you. And it's nice to see all of you, my
can see and

965

01:22:07.740 --> 01:22:12.480

Helen Benes Kaiser: Good wishes to you that girl. Have a wonderful
retirement.

966

01:22:13.080 --> 01:22:14.460

garciarilledgar: Thanks. Thanks for checking in.

967

01:22:14.850 --> 01:22:16.080

Helen Benes Kaiser: Yeah. Bye bye.

968

01:22:16.590 --> 01:22:18.030

Gwen Childs. UAMS: Bye so ever.

969

01:22:18.210 --> 01:22:22.560

Gwen Childs. UAMS: You want to have some final words. I don't think we've
left you speechless.

970

01:22:23.550 --> 01:22:23.850

garciarilledgar: I can

971

01:22:23.910 --> 01:22:25.890

Mohsin Syed: Just let me, let me say some. Can I say

972

01:22:26.460 --> 01:22:27.270

garciarilledgar: Sure Moshe

973

01:22:27.540 --> 01:22:34.260

Mohsin Syed: Yeah, so the progress in my experience with you is a little
different. Most of the people has research experience with you.

974

01:22:34.710 --> 01:22:45.060

Mohsin Syed: Actually I was more in teaching. So when you call me for the
first time to take over the lectures during the retirement of Dr.
Skinner, I was really nervous.

975

01:22:45.510 --> 01:22:55.590

Mohsin Syed: So I went to his office to the professor's office and I say do you think I can do that. He said, Yes, I can tell you, you should be able to do this, I will tell you.

976

01:22:56.400 --> 01:23:02.490

Mohsin Syed: So first year I did it. I was very nervous. But the good thing was that there was only four or five students

977

01:23:02.970 --> 01:23:11.490

Mohsin Syed: So it was okay. I did it for two, three years and then he asked me to attend his all his classes. I used to be in his classes on modern system.

978

01:23:12.120 --> 01:23:19.320

Mohsin Syed: And then after two years, he said. In fact, I'm tending to retire. So next year will be the last year, I will be teaching

979

01:23:19.770 --> 01:23:30.420

Mohsin Syed: So you better be prepared to take over my lectures as well as well. I have five in sensitive system he used to do eight nine in multiple system and they were rather complicated actually

980

01:23:30.960 --> 01:23:45.030

Mohsin Syed: So I was in his lecture for two, three years, actually, before I agree to give it a try. So, you know, he gets it. He gave me a lot of courage and not a lot of training and eventually I started

981

01:23:45.900 --> 01:23:55.740

Mohsin Syed: Taking the motor system classes and eventually I took over as as the course director, actually, when he decided to leave. And I asked him why you are retaining

982

01:23:56.430 --> 01:23:58.380

Mohsin Syed: And he said, I have a lot of writings to

983

01:23:58.380 --> 01:24:13.920

Mohsin Syed: Do I cannot do it with full time faculty position. So I will keep writing. So anyway, thank you very much for your mentorship and your training. I really appreciate it and that that was that was so much helpful actually in my career. Thank you so much, Dr. Garcia.

984

01:24:14.940 --> 01:24:22.800

garciarilledgar: Thank you. It was great working with you and and you know it was easy, because the students, you know with with as much

985

01:24:25.500 --> 01:24:38.280

garciarilledgar: Training as you had it was an easy transition. And so I
i could see the time coming, that I wasn't going to be teaching, even
though I really liked lecturing, especially those lectures.

986

01:24:39.570 --> 01:24:56.160

garciarilledgar: I could see that time that the students needed somebody
good that could that would teach them the same topics. And so you've
you've taken over and done a wonderful job. And so your, your job is
going to be to train the next guy once you decide to retire. Thank you.

987

01:24:57.270 --> 01:24:57.780

garciarilledgar: Thank you.

988

01:24:58.350 --> 01:24:59.190

garciarilledgar: Alan, are you back.

989

01:24:59.460 --> 01:25:01.170

Helen Barbas: Here. Yes, yes.

990

01:25:02.700 --> 01:25:03.360

Helen Barbas: Hello.

991

01:25:03.420 --> 01:25:04.800

garciarilledgar: Helen's at Boston

992

01:25:05.550 --> 01:25:08.640

Helen Barbas: Yes, I have a little difficult thing.

993

01:25:10.620 --> 01:25:25.710

Helen Barbas: At the beginning, so I was able to join. I was listening,
though, so those, you probably don't know me. Nobody accepted her
probably and I just wanted to say hello to Edgar.

994

01:25:27.870 --> 01:25:31.920

Helen Barbas: We both had the same mentor in Montreal at McGill
University.

995

01:25:33.060 --> 01:25:35.730

Helen Barbas: Bernardo dobrowski who died.

996

01:25:36.960 --> 01:25:37.800

Helen Barbas: Three years ago.

997

01:25:38.940 --> 01:25:40.320

Helen Barbas: Unfortunately, and with

998

01:25:40.980 --> 01:25:41.340

A

999

01:25:42.930 --> 01:25:54.450

Helen Barbas: Memorial in his honor, and both of us contributed to that fun, but I just want to say a few things that are coming from the same

1000

01:25:58.470 --> 01:26:01.890

Helen Barbas: From the same lab and university.

1001

01:26:03.570 --> 01:26:14.250

Helen Barbas: We have them enter cool allowed us to be creative and to really stop us from doing experiment and so

1002

01:26:28.800 --> 01:26:29.550

Gwen Childs. UAMS: There she is.

1003

01:26:30.450 --> 01:26:42.960

Helen Barbas: Yes, I was getting a an echo from another thing at night just closed it. Sorry. So anyway, so for we had very similar background and we did not overlap at all.

1004

01:26:43.500 --> 01:26:59.370

Helen Barbas: But I heard so much about, you know, so it was like an invisible Big Brother for me. And so it was ABC or D vs unethical did that and there were a lot of stories about their currencies work at my ear.

1005

01:27:00.630 --> 01:27:01.620

Helen Barbas: And so

1006

01:27:03.060 --> 01:27:03.690

Helen Barbas: We

1007

01:27:04.950 --> 01:27:13.890

Helen Barbas: followed a little bit each other over the years and met at neurosciences on self several times and

1008

01:27:14.910 --> 01:27:15.360

Helen Barbas: I

1009

01:27:16.950 --> 01:27:20.550

Helen Barbas: Think that he had an illustrious career and and that

1010

01:27:21.450 --> 01:27:31.110

Helen Barbas: Everybody will remember his experiments and then the work that he did. I don't know what he's teaching, but from what I heard. People were very excited about his teaching as well.

1011

01:27:31.890 --> 01:27:49.800

Helen Barbas: But his work will be will have a lasting value both what he did as a graduate student and later on in Arkansas. And so I hope you will continue to write and I don't know what you're going to be writing it, but I can't wait to to see

1012

01:27:51.540 --> 01:27:56.400

garciarilledgar: Well it thanks for thanks for those words. For those of you who don't know, Helen train

1013

01:27:56.400 --> 01:28:04.500

garciarilledgar: With an out of the roski in the same lab and McGill. And then he died a few years ago I was out of the country when when his memorial happen.

1014

01:28:05.910 --> 01:28:07.470

garciarilledgar: And but it was

1015

01:28:08.730 --> 01:28:15.960

garciarilledgar: It was a really good experience. And if you, if you look at Helens career at BU.

1016

01:28:17.430 --> 01:28:29.010

garciarilledgar: You can tell the quality of training that she had with with Bernardo. And so, so he he really laid the foundation in both of us for

1017

01:28:30.720 --> 01:28:33.900

garciarilledgar: For the future, and I really, really appreciate that.

1018

01:28:35.280 --> 01:28:36.840

garciarilledgar: Deanna. It's great to see you.

1019

01:28:38.880 --> 01:28:40.050

Helen Barbas: I kept CPM

1020

01:28:40.470 --> 01:28:41.010

Yeah.

1021

01:28:42.420 --> 01:28:43.260

Nice to see here

1022

01:28:44.910 --> 01:28:45.870

Diana/Alex: I must say

1023

01:28:45.960 --> 01:28:59.580

Diana/Alex: Is a wonderful experience to have being present in this in this retirement party and at guard. This has been a great tribute to all your wonderful achievement until

1024

01:29:00.000 --> 01:29:16.290

Diana/Alex: To your personal qualities. I am very happy to have been part of this, I am sorry Bernardo couldn't be here to see this. You are his children and those very many wonderful grandchildren of Bernard is

1025

01:29:16.350 --> 01:29:32.190

Diana/Alex: That your thoughts, right, help to populate the world with. So, I wish you the best. I don't know what you're going to do with all your energy. Now that you have retired. I kind of worried about your

1026

01:29:36.390 --> 01:29:41.010

Diana/Alex: put up with this. I'm sure you will find great outlets for this.

1027

01:29:41.370 --> 01:29:54.720

garciarilledgar: Yes, I have no doubt I. One of the things that that you know Bernardo read incessantly. And that's one thing that that he taught me this is that you read everything

1028

01:29:55.470 --> 01:30:10.560

garciarilledgar: And that was, that was a start of a wonderful career and but, by the way, Francisco and rainbow DNS from Argentina there. She's from one side. So in case you don't know the end of dobrowski

1029

01:30:11.910 --> 01:30:13.350

garciarilledgar: Anyone thank you for

1030

01:30:13.380 --> 01:30:18.060

garciarilledgar: For, for joining and it's it's been great. Great to see you.

1031

01:30:18.540 --> 01:30:23.790

Diana/Alex: What a wonderful life. Congratulations, and all the best. All the best.

1032

01:30:24.090 --> 01:30:24.810

Vero: Thank you.

1033

01:30:25.140 --> 01:30:26.850

Gwen Childs. UAMS: Charisse wanted to speak.

1034

01:30:29.070 --> 01:30:29.520

Gwen Childs. UAMS: Is

1035

01:30:29.790 --> 01:30:37.590

Caris Fitzgerald: Charisse and sure I just actually typed up with a quick thing that I wanted to say, which is that

1036

01:30:38.070 --> 01:30:52.950

Caris Fitzgerald: You know, we're all so proud of you. Congratulations on your professor emeritus status and your retirement. There is just no doubt in my mind that the sleep medicine patients of Arkansas had benefited from your influence on me directly.

1037

01:30:54.630 --> 01:31:06.360

Caris Fitzgerald: And it was neuroscience, the beginning of medical school that you helped me at times when I wanted to a better understanding or deeper understanding of the material.

1038

01:31:06.840 --> 01:31:19.590

Caris Fitzgerald: And then a few years later, Dr gribble my mentor sleep mentor at the time. Got us back together and I believe that you helped me get to my first sleep conference as a medical student

1039

01:31:20.040 --> 01:31:48.330

Caris Fitzgerald: In 2008 and do that conference, I was able to meet several really important people at the University of Pittsburgh go Pitt. Um, and, and was able to train under Dan by sea and Patrick Stroh low and and Charlie Atwood and that training can't be gotten anywhere else.

1040

01:31:49.980 --> 01:31:53.160

Caris Fitzgerald: It was, it was an amazing experience and

1041

01:31:54.480 --> 01:31:59.850

Caris Fitzgerald: Has no doubt made me feel confident and

1042

01:32:00.900 --> 01:32:13.950

Caris Fitzgerald: Feel like I can truly be a good helper when it comes to sleep medicine. So I just want to thank you very deeply. I think that my day to day life is

1043

01:32:14.670 --> 01:32:28.080

Caris Fitzgerald: Improved because I love my job so much and I feel so confident in my ability to help with sleep medicine. And I just, I don't know that I would have that without you. And I just thank you so very much.

1044

01:32:28.980 --> 01:32:38.370

garciarilledgar: Well, that's wonderful. You know, most medical students, especially when they're starting out, don't ask for more work. And so right away.

1045

01:32:39.060 --> 01:32:54.210

garciarilledgar: You, you, you, you set the bar high and and I knew that I needed to help you because you wanted to know. And I remember the meeting that you're mentioning because you and

1046

01:32:56.850 --> 01:33:07.710

garciarilledgar: And Kristin Simon I in fact I have a picture of the two of you in that PowerPoint from that meeting and and you both had a fantastic time

1047

01:33:09.000 --> 01:33:10.380

garciarilledgar: And it's established

1048

01:33:12.300 --> 01:33:30.180

garciarilledgar: Careers and sleep medicine for you and she is going on. I, I think I saw her name come across, but I didn't see her picture, but she was she's doing testing for a company and nearly Troy and she's like,

1049

01:33:33.270 --> 01:33:38.700

garciarilledgar: Your head of something or other. But see, she has been incredibly successful as well.

1050

01:33:39.120 --> 01:33:40.680

Caris Fitzgerald: I'm so glad to hear that.

1051

01:33:42.030 --> 01:33:56.760

Caris Fitzgerald: There are so many basic science conversations that you and I had that just took my understanding of sleep medicine to another level. And I just really thank you for that encouragement and time.

1052

01:33:57.390 --> 01:34:00.930

garciarilledgar: What one thing I forgot is. What are you kids names.

1053

01:34:02.340 --> 01:34:06.810

Caris Fitzgerald: Um, so, Hamilton. Hamilton and Kennedy are the triplets.

1054

01:34:07.260 --> 01:34:07.920

triplets.

1055

01:34:08.940 --> 01:34:09.630

garciarilledgar: triplets.

1056

01:34:10.500 --> 01:34:11.700

garciarilledgar: In case you guys don't know

1057

01:34:11.880 --> 01:34:13.320

Caris Fitzgerald: Six and a half now.

1058

01:34:13.710 --> 01:34:15.960

garciarilledgar: Wow, amazing.

1059

01:34:16.980 --> 01:34:18.570

garciarilledgar: You better start saving for college.

1060

01:34:18.990 --> 01:34:19.590

Gwen Childs. UAMS: Thank you.

1061

01:34:21.390 --> 01:34:21.570

Caris Fitzgerald: Good.

1062

01:34:22.770 --> 01:34:23.250

garciarilledgar: To see you

1063

01:34:24.060 --> 01:34:25.260

Caris Fitzgerald: Good to see you.

1064

01:34:26.280 --> 01:34:29.700

Gwen Childs. UAMS: Before I go any further, I want to thank Abdullah higher who

1065

01:34:29.760 --> 01:34:30.330

garciarilledgar: Yes.

1066

01:34:30.450 --> 01:34:39.540

Gwen Childs. UAMS: Seeing this and he also put a lot of work into creating the Web site. And so what will we will

1067

01:34:40.110 --> 01:34:53.250

Gwen Childs. UAMS: Have a video and we will have a recording of this which will be out on the departmental web page, and also the website, which features Edgar. So you can go out and relive these moments, if you want.

1068

01:34:54.870 --> 01:34:56.640

Gwen Childs. UAMS: But thanks Abdullah, he did a lot of

1069

01:34:57.360 --> 01:34:58.860

Abdallah Hayar: Dash appreciate

1070

01:34:58.950 --> 01:35:16.410

Abdallah Hayar: And thank you. I like to congratulate Dr. Garcia real and I wish that he would stay around, especially after the covered 19 go away and come to his office. Keep giving us advice and keeps us again. I mean, alive because we need more people

1071

01:35:17.460 --> 01:35:29.670

Abdallah Hayar: Maybe we need to recruit some of the students that have graduated and gone somewhere else and maybe James hi can come back. Maybe I can convince Angela to do something to facility alternative hypothesis.

1072

01:35:31.470 --> 01:35:31.740

Abdallah Hayar: So,

1073

01:35:32.520 --> 01:35:35.250

garciarilledgar: Well, James. James is working with her on that.

1074

01:35:35.850 --> 01:35:37.170

garciarilledgar: Yeah, so

1075

01:35:37.350 --> 01:35:39.780

Gwen Childs. UAMS: Good Terry, but who knows they might go for that's

1076

01:35:39.780 --> 01:35:40.080

garciarilledgar: Right.

1077

01:35:40.380 --> 01:35:40.920

No, no.

1078

01:35:42.360 --> 01:35:44.910

Helen Arpine Baghdoyan: We have to another meeting, we must attend

1079

01:35:44.970 --> 01:35:51.060

Helen Arpine Baghdoyan: And I want to before we sign off congratulate you and Catherine. I want to thank grand for organizing this.

1080

01:35:51.510 --> 01:35:58.440

Helen Arpine Baghdoyan: I thought the video that the university produced about you and about the many accomplishments was absolutely magnificent and

1081

01:35:59.100 --> 01:36:10.740

Helen Arpine Baghdoyan: At this time, when there's so much disheartening news, I have to tell you, this has been a very enjoyable and moving experience because yes your magnet that attracts talent, but

1082

01:36:11.280 --> 01:36:20.790

Helen Arpine Baghdoyan: It's great to see so much positivity in the face of so much bad news. And so I congratulate all of you for what you've all created there at the university and wish you all the best.

1083

01:36:21.060 --> 01:36:21.660

Gwen Childs. UAMS: Thank you.

1084

01:36:21.840 --> 01:36:22.410

garciarilledgar: Thank you.

1085

01:36:22.590 --> 01:36:23.760

garciarilledgar: Thank you so much for coming.

1086

01:36:24.150 --> 01:36:25.650

Gwen Childs. UAMS: Introduce them so that

1087

01:36:26.160 --> 01:36:30.900

garciarilledgar: Ralph light IQ and Helen by go in there at the University of Tennessee.

1088

01:36:32.340 --> 01:36:33.720

garciarilledgar: in Knoxville.

1089

01:36:35.640 --> 01:36:36.090

garciarilledgar: And

1090

01:36:37.140 --> 01:36:41.100

garciarilledgar: So is so small data. I don't know if he's still

1091

01:36:42.570 --> 01:36:48.480

garciarilledgar: There he is with online. Sure. See the background shiny, you know that reflection off his window.

1092

01:36:48.780 --> 01:36:49.260

Subimal Datta: That's not

1093

01:36:50.220 --> 01:36:53.010

garciarilledgar: With it. Everybody has a barbecue that size.

1094

01:36:53.160 --> 01:36:53.490

Subimal Datta: Yeah.

1095

01:36:53.640 --> 01:36:55.200

Subimal Datta: I'm sitting outside on my day.

1096

01:36:57.870 --> 01:37:00.870

Gwen Childs. UAMS: You also have family here to add your deep

1097

01:37:01.170 --> 01:37:04.230

garciarilledgar: Yes, my sister.

1098

01:37:05.970 --> 01:37:08.310

garciarilledgar: Yeah, is over here. Where is she

1099

01:37:10.620 --> 01:37:11.580

garciarilledgar: Oh, they got bored.

1100

01:37:12.060 --> 01:37:12.660

Oh,

1101

01:37:15.540 --> 01:37:16.620

Gwen Childs. UAMS: I see Sarah.

1102

01:37:16.980 --> 01:37:21.330

garciarilledgar: Sarah. Sarah was there, but I didn't get a picture of money. So I haven't talked to

1103

01:37:23.430 --> 01:37:24.780

garciarilledgar: It's great to see you.

1104

01:37:26.070 --> 01:37:30.240

marisela morales: Great to see you. I just want to say a few words, if I can.

1105

01:37:30.810 --> 01:37:31.140

Gwen Childs. UAMS: Sure.

1106

01:37:31.320 --> 01:37:53.940

marisela morales: I met Edward the first time when my scientific independent program was under review and Edward was one of the three reviewers that assigned was presenting. I was getting more and more nervous and I took a pause and immediately everywhere. It was it work.

1107

01:37:54.990 --> 01:38:07.350

marisela morales: Style making a comment that calmed me down and I was able to continue talking and at the end of my presentation. He spoke Spanish

1108

01:38:08.520 --> 01:38:18.600

marisela morales: And as a Latina, I want to tell you that since then you became my role model and my inspiration for Deborah. So you could ask, yes.

1109

01:38:19.500 --> 01:38:20.550

garciarilledgar: Which is a city.

1110

01:38:22.050 --> 01:38:37.860

garciarilledgar: In Malaysia has done some fantastic work at night and so she's another one of these people that are just NUGGETS THAT THAT YOU HAVE TO HELP. And just a little bit of help and then off they go. And so she's now.

1111

01:38:38.910 --> 01:38:48.060

garciarilledgar: Way up in the ladder and doing some fantastic work and it has been a pleasure working with you. And in talking science with you all these years.

1112

01:38:52.620 --> 01:39:01.380

Gwen Childs. UAMS: So one of our youngest faculty member, it just wrote an email, he has to go. But I have to intend another engagement. This is Edgar Meyer.

1113

01:39:01.830 --> 01:39:02.130

Gwen Childs. UAMS: Yeah.

1114

01:39:02.340 --> 01:39:03.900

garciarilledgar: I saw him so yeah

1115

01:39:03.960 --> 01:39:19.320

Gwen Childs. UAMS: Yeah, he was here though. I've only known you for a short while, Dr. Garcia real, it has been great to know you. I can certainly see from your legacy. You are an inspiration to many and your contributions have laid the foundation for many more who will benefit from your work so

1116

01:39:19.620 --> 01:39:20.400

garciarilledgar: That's wonderful.

1117

01:39:20.460 --> 01:39:21.270

Gwen Childs. UAMS: All these messages.

1118

01:39:21.300 --> 01:39:21.960

garciarilledgar: please thank him.

1119

01:39:22.380 --> 01:39:23.490

Gwen Childs. UAMS: Yes, yeah.

1120

01:39:24.930 --> 01:39:25.380
Gwen Childs. UAMS: So,

1121
01:39:26.850 --> 01:39:32.880
Gwen Childs. UAMS: Well, do you have any last words of wisdom I do recall that you didn't want this to go on more than an hour.

1122
01:39:32.940 --> 01:39:35.550
garciarilledgar: Yeah I know is like, you know,

1123
01:39:36.480 --> 01:39:41.340
garciarilledgar: And listen, this has been wonderful and I really appreciate all the effort that

1124
01:39:41.430 --> 01:39:52.110
garciarilledgar: That you put in and \$1 put in in in carrying this out and I'm and I'm so happy that you you you drag the dean.

1125
01:39:54.450 --> 01:39:56.100
Gwen Childs. UAMS: Is more than happy to do that.

1126
01:39:56.100 --> 01:39:58.230
garciarilledgar: And and your whole

1127
01:39:59.520 --> 01:40:00.060
garciarilledgar: For

1128
01:40:00.150 --> 01:40:09.690
garciarilledgar: Great. She's the Vice Chancellor for Research and so it's been pretty spectacular hearing from everybody and

1129
01:40:11.220 --> 01:40:13.350
garciarilledgar: It's always great to hear how wonderful you are

1130
01:40:15.300 --> 01:40:15.780
Just kidding.

1131
01:40:17.640 --> 01:40:18.450
garciarilledgar: Just kidding.

1132
01:40:19.470 --> 01:40:21.450
garciarilledgar: But it's been great everybody

1133

01:40:21.540 --> 01:40:21.930

garciarilledgar: Bye bye.

1134

01:40:22.320 --> 01:40:22.650

Ang & Paige: We can

01:41:18.570 --> 01:41:27.360

James Hyde: It is actually really want to thank you for being an amazing mentor, as well as a graduate student for also being amazing mentor walls at Pitt as well.

1147

01:41:27.780 --> 01:41:36.210

James Hyde: And also for helping me out while I'm setting up my lab here at back my moved back to Arkansas at sa you you've been helping me out the CT and and still helping me out.

1148

01:41:37.110 --> 01:41:45.360

James Hyde: In addition, I'm able to work with Angela are setting up collaboration is going there and then no, it's kind of funny. I still remember back to the very first day I met you actually

1149

01:41:47.070 --> 01:41:54.750

James Hyde: Right when I moved back from Japan. Dr. Davies brought me in brought me up to your office and said, Okay, well here's, here's a way for you to talk to. We chatted for a little bit.

1150

01:41:55.410 --> 01:42:03.570

James Hyde: And then me like it thrown working with Nessa work working on trying to diagnose. One of the rigs and then later on that evening everyone over to the

1151

01:42:04.650 --> 01:42:08.460

James Hyde: pizza restaurant. We all sat around discussing either the vortex that entire thing.

1152

01:42:09.480 --> 01:42:10.200

James Hyde: Is frankly that

1153

01:42:11.370 --> 01:42:21.570

James Hyde: After that long discussion is one of those cases like okay I found my spot, not I found a guy who actually knows what he knows what he's doing. He actually helped me out on this. So really, thank you. I really appreciate it.

1154

01:42:22.320 --> 01:42:36.960

garciarilledgar: Well, it's it's it you know is great. I'm glad you came back from Pittsburgh and and that you you find the place I'm reading over

your left shoulder danger avoid serious injury. I think that's a great piece of advice.

1155

01:42:38.010 --> 01:42:43.920

garciarilledgar: And on the over the shoulder, you should say you should put up a sign that says there's no crying in neuroscience.

1156

01:42:45.630 --> 01:42:45.960

James Hyde: That

1157

01:42:46.830 --> 01:42:48.180

James Hyde: I want to put that up in my lab.

1158

01:42:48.270 --> 01:42:51.150

James Hyde: Because I've actually already told at least one student. This is

1159

01:42:51.900 --> 01:42:56.610

garciarilledgar: Good. You can you can borrow ALL OF THOSE NUGGETS

1160

01:42:57.210 --> 01:42:58.140

Ang & Paige: Police your

1161

01:43:00.330 --> 01:43:00.780

garciarilledgar: Status.

1162
