

PharmTox Fights COVID-19

Week of December 14-18, 2020

Happy Holidays from Pharmacology and Toxicology!

Members of the department have been getting into the holiday spirit this week! The annual department party was held virtually on Tuesday the 15th. Those attending enjoyed treat bags of cookies and candy, compliments of Dr. Rusch. Some department members enjoyed playing virtual bingo/present exchange. We've included some fun photos of some of the attendees with their gifts! We wish everyone a very happy and safe holiday and we look forward to welcoming in 2021! Happy Holidays and Stay Safe!

Brian Parks is Engaged!

Graduate student, Brian Parks, proposed to his girlfriend Sarah this past Saturday! Sarah is a former OR nurse at UAMS and now works at CHI St. Vincent in the education department. Brian asked a couple of Sarah's friends to take her to breakfast and coffee at Nexus Coffee Shop, where they had their first date. After breakfast, her friends walked her over to Junction Bridge where Brian was waiting to propose to her! After the proposal, they went back to Nexus to take photos, then drove to her parents house, where Brian's family was also waiting to congratulate them! Their little engagement get together was hosted outside so everyone could be socially distant. Brian and Sarah's wedding date is May 22, 2021 and they will be getting married in Sherwood.
