

Policy 2.1.2 UAMS COM Undergraduate Medical Education
Section Learning Environment
Title TIME SPENT IN REQUIRED ACTIVITIES DURING THE PRE-CLERKSHIP PHASE
LCME Element(s) 8.8 Monitoring Student Time
Approved By UAMS COM Curriculum Committee
Version History Revised May 24, 2022

In order to allow for adequate self-directed learning time, scheduled hours will be limited to no more than 25 hours per week. The 25 hours will include all courses running concurrently, averaged over the length of the courses. In addition, no week should have more than 30 required hours. Exceptions to this limit may be made for weeks with more than two gross anatomy lab sessions or patient contact sessions. This 25 hour per week limit does not include supplementary activities such as tutorials, reviews, optional readings, etc.

This policy includes both in-class activities and required assignments to be completed outside of class time.
