

Policy 2.1.8 UAMS COM Undergraduate Medical Education
Section Learning Environment
Title EDUCATION OF MEDICAL STUDENTS ABOUT METHODS OF INFECTION PREVENTION
LCME Element(s) 12.8 Student Exposure Policies/Procedures
Approved By UAMS COM Curriculum Committee
Version History January 12, 2023

It is the policy of the College of Medicine that medical students will complete a College-specific training program on methods of infection prevention and the process used for care after a needle stick or other infectious exposure before the students begin working with patients.

Executive Associate Dean for Academic Affairs
